REPORT.

The Board of Directors met in the rooms of the Society, Tuesday, November 20, 1888, at 3:30 P. M., the following members being present: Hon. John Francis, Hon. V. J. Lane, Hon. F. P. Baker, Judge S. A. Kingman, Hon. D. W. Wilder, Hon. James Smith, Maj. Benjamin F. Simpson, Hon. James F. Legate, Hon. W. C. Edwards, Hon. E. J. Dallas, Hon. Martin Mohler, Hon. T. D. Thacher, and the Secretary, F. G. Adams.

Letters were read from Hon. Edward Russell, President of the Society, and from Prof. I. T. Goodnow and Hon. L. R. Elliott, expressing regrets at their inability to be present at the meeting.

The President and Vice-Presidents being absent, Judge Kingman was called to the chair, on motion of Hon. F. P. Baker.

The Secretary then read the report, which was approved on motion of Mr. Legate, and ordered for publication.

On motion of Mr. Legate, it was voted that a committee be appointed, composed of three citizens of Topeka, to act in connection with the President and Secretary of the Society, to confer with the Executive Council and the Legislature, and to take charge of the matter of procuring suitable rooms in the State House, when completed, for the library and collections of the Society. The President appointed F. P. Baker, T. D. Thacher and John Francis members of the committee.

The Secretary called the attention of the Board to a letter from Senator Plumb, transmitting a letter of Col. R. J. Hinton, in which the latter proposes to dispose of some historical manuscripts and papers which he has collected. On motion, the Secretary was directed to confer with Colonel Hinton upon the subject.

On motion of Mr. Edwards, the following resolution was adopted, and ordered to be submitted to the annual meeting for its consideration:

Whereas, The Kansas State Historical Society has always considered that its library and collections were being gathered and made up wholly as the property of the State; and, whereas, the Legislature, by act of March 10, 1879, declared the Society to be a trustee of the State, and its library and collections of every kind to be the inalienable property of the State: therefore,

Resolved, That this Society hereby formally declares it to be the intention of the Society, that its library and collections hitherto gathered, and all that shall hereafter be gathered, are, and are to become the exclusive property of the State of Kansas, for the use of the people of the State; and the Society fully accepts the terms and conditions expressed and contained in said act of March 10, 1879.

On motion, the meeting adjourned.

REPORT OF THE BOARD OF DIRECTORS, NOV. 20, 1888.

By vote of the Board of Directors at the meeting of January 17th, 1888, the time for concluding the yearly work of the Society and making up the annual report was changed from the third Tuesday of January to the third Tuesday in November. This change was made for the object of giving time for the printing of the Society's biennial reports previous to their presentation to the annual meeting, and before the meeting of the Legislature. The report here presented, then, exhibits the work of the Society during the period commencing with January 18th, 1887, and ending with November 19th, 1888, or about one year and ten months, instead of for the full period of two years, as has been the case with former biennial reports.

SUMMARY.

During the period covered by this report there have been added to the library of the Society, of bound volumes, 1,619; unbound volumes and pamphlets, 9,250; volumes of newspapers and periodicals, 1,995; single newspapers, 1,734; maps, atlases and charts, 116; manuscripts, 662; pictures and works of art, 275; scrip, currency, coins and medals, 32; war relics, 12; miscellaneous contributions, 229.

The library additions of books, pamphlets, and newspaper files, not including duplicates, number 12,864 volumes. Of these, 12,001 have been procured by gift, and 863 by purchase.

The whole number of volumes in the library at the present time is as follows, namely: 9,971 bound volumes; 30,353 unbound volumes; 7,981 bound newspaper files and volumes of periodicals; in all, 48,305 volumes.

YEARLY GROWTH OF THE LIBRARY.

The following is a statement of the yearly growth of the library in thirteen years, 1876 to 1888, inclusive:

The tables which the report contains show perhaps as well as tables and exhibits can, the character and extent of the work done by the Society during the period which the report covers.

Included in the pamphlet accessions are 5,393 newspaper cuttings, which have been mounted and placed in the library classification. These are the accumulations of many years. They relate chiefly to Kansas history, local and general, to biography, proceedings of local pioneer gatherings, and of various State societies and associations. Mounted in scrap-books and placed in the library, they are thus made convenient for reference.

MENTION OF SOME DONATIONS.

Among the most liberal of the donors of books and pamphlets may be mentioned Rev. S. L. Adair, of Osawatomie; Hon. F. P. Baker, Hon. T. D. Thacher, Mr. A. S. Huling and Hon. D. M. Valentine, of Topeka; Prof. I. T. Goodnow and Mrs. B. F. Mudge, of Manhattan; Hon. Geo. W. Martin, Kansas City; Hon. Eli Thayer, of Worcester, Massachusetts; Dr. Samuel A. Green, Secretary of the Massachusetts Historical Society, Boston; and the Essex Institute, Salem, Massachusetts. Prof. Goodnow has given from his thirty-three years' savings in Kansas a mass of historical material of inestimable value, consisting of books, pamphlets, magazines, manuscripts, maps, newspaper files and other papers. Hon. D. M. Valentine has given the Society ninety-four pamphlets, chiefly consisting of Kansas political and other publications thoughtfully saved by him during his thirty years' residence in Kansas. One of the most valuable gifts of books to the Society has been that made by Hon. George W. Martin, now of Kansas City, Kansas, consisting of 100 copies of "Wilder's Annals," 1875 edition. This book has been much sought for by libraries and institutions with which our Society makes exchanges, and the gift enables us to effect exchanges securing the augmentation of our library by many valuable volumes otherwise beyond our reach.

Of the 662 manuscript papers contributed, there are many which are of historical interest. Among such may be mentioned the record books of early Topeka social organizations, given by Mrs. Ashbaugh; the muster-rolls, given by Judge L. D. Bailey, containing a record of the first military organization in what is now Lyon county; Dr. George W. Brown's contributions to anti-slavery and early Kansas history; the contributions made to John Brown history by John Brown, jr., Theodore Botkin, Hon. Horace L. Jones, Hon. O. E. Morse, Col. William A. Phillips, and Capt. J. A. Pike; the autobiographical sketches by lady editors of Kansas newspapers; the mass of petitions of the women of Kansas for municipal suffrage, presented to the Legislature of 1887; and the voluminous original records of Kansas history contained in the contributions made by Mrs. Lawrence, the widow of Amos A. Lawrence, a most liberal benefactor of Kansas in the earliest days of trial. These manuscripts contain a large portion of the records of

the work of the New England Emigrant Aid Company, of which Mr. Lawrence was the treasurer.

Of maps and atlases donated to the library, the atlas to accompany the Ohio Geological Survey, given by Mr. Robert Clarke, of Cincinnati, accompanied as the gift was by that of the volumes of the Survey, is worthy of special mention; as is also the gift by Mr. F. E. Jerome, of Russell, of the atlas to accompany the Michigan Geological Survey. Mr. John P. Edwards, of Quincy, Illinois, has added to the gifts before made by him of Kansas maps and atlases, by contributing large wall maps of three Kansas and one Missouri county. Professor Goodnow's very large gift to the Society was accompanied by eighteen valuable maps. The gift made by J. H. Meacham of his voluminous illustrated atlas of Brown and Nemaha counties is an important contribution to the materials of Kansas history. The Iowa atlas given by Mr. A. W. Stubbs is a valuable record of the history of a neighboring State. Messrs. Wasser and Flint, of Girard, have added again to their contributions of Kansas maps. Mr. Henry Kuhn's gift of Boudinot's map of the Indian Territory is an important contribution. Rand, McNally & Co. have added largely to the gifts which they had before made of maps of the States and Territories. The archæological map made and given to the Society by Mr. William Griffing is an interesting record of original investigation of the antiquities of Kansas.

Noteworthy among the pictures added to the gallery is a crayon portrait of Senator Ingalls, a gift of the artist, Mr. A. Montgomery; a crayon portrait of Col. Alexander S. Johnson, given by himself by special request; and a portrait of Chester Thomas, sr., given by members of his family. Mr. Robert Tracy, of St. Joseph, Mo., has given photo portraits of Maj. William P. Richardson and Dr. John H. Stringfellow, both prominent figures in the earliest period of Kansas Territorial history; the family and friends of Prof. B. F. Mudge have given a portrait of that most prominent early worker in Kansas science; Thomas W. Heatley has given an original photo portrait of Richard Realf, and a fine crayon copy of this portrait has been given the Society by Mrs. Peacock, who executed it; H. T. Martin, the photographer, has contributed cabinet photos of members of the Legislature and the executive officers of 1887-8, 136 in number. Numerous other portraits and pictures have also been contributed to the Society's very large collection of this class of historical material. Ex-Gov. Frederick P. Stanton, now a resident of Farmwell, Virginia, has given the Society a fine marble bust of himself, executed many years ago by Horatio Stone. This gift will ever be regarded by the Society and by the people of Kansas as an interesting memorial of one whose official career was marked by invaluable services in times of great need.

Conspicuous among the contributions is the gold medal which was presented by Victor Hugo and his associates in France, in 1874, to the widow of Capt. John Brown, in testimony of the recognition by the donors of the

supreme sacrifice made by the Kansas martyr in behalf of human rights. The medal has been deposited with the Historical Society by Capt. John Brown, jr., and his brothers and sisters, regarding as they do our Society as the appropriate custodian of the memorials of their illustrious father.

Of war memorials may be mentioned the gift by Maj. James B. Abbott of his sword, a relic of the early troubles in Kansas, as well as of the war of the Rebellion, also the gift by the same of an English musket, a relic of Confederate arms employed on our border in Price's raid, and a Pro-Slavery flag, a relic of the Kansas Territorial troubles; the gift by Mrs. Hannah Ritchie of the sword and gun of Gen. John Ritchie, memorials of the services rendered by a distinguished and honored pioneer citizen of Kansas in the war for the preservation of the Union. Hon. A. Washburn gives an interesting relic of the war of the Revolution, and Dr. S. B. Prentiss the same of the Pro-Slavery troubles of 1856. Interesting relics of the war of the Rebellion have been given by Mrs. Lititia Watkins, Mr. W. A. Warren, J. W. Richardson, W. E. Richey, and Mrs. Sophia Ashbaugh.

Of files of newspapers, Rev. S. L. Adair has given thirty-six volumes, Hon. F. P. Baker sixteen, and Prof. I. T. Goodnow sixty-two. These with the others contributed swell the number of files given the Society in addition to those contributed in regular issues, to one hundred and twenty-eight in number. These added to the volumes of newspapers and periodicals which have accumulated through regular newspaper issues received, chiefly from gifts, make up 1,995 volumes of this most valuable class of historical materials received during the period covered by the report.

CHARACTER OF THE LIBRARY.

The lists and tables which this report contains show that there is being made up by this Society for the use of the people of Kansas a library of history and reference, remarkable in its growth, and still more remarkable in the character and value of the materials which it contains. They show that notwithstanding much embarrassment the growth of the library and collections has steadily continued from year to year during the thirteen years of the Society's existence, and that in that time there have been placed on the library shelves more than forty-eight thousand volumes of books, newspaper files and pamphlets; and in addition to these, this and former reports show a collection of manuscripts, pictures, statuary, relics and objects of historical illustration of every kind and description almost countless in number.

The character of these materials is such as was contemplated in the organization of the Society and such as the law directs the Society to bring into its library and collections. They are chiefly the printed and written records of the people of Kansas; records which go to show the sacrifices and achievements of our first settlers in establishing freedom on our soil; records of the daily, weekly, monthly and yearly transactions of the people

in social, moral, educational and material progress; in the building-up of our towns, with their depots of trade, their manufactories, and varied industrial establishments; records which show the unexampled progress in the construction of lines of railroad transportation; in the opening and planting of farms, orchards and vineyards; records of the march, year by year, of our frontier people toward the border, still experimenting with the powers of nature, and still subduing obstacles which for all the ages before had been deemed insurmountable. The history of the struggles and triumphs of the people of Kansas, from the earliest day to the present, have been and are being more fully recorded by pen and printing-press than ever before was that of any people; and our Historical Society is very fully gathering in and placing accessibly on its shelves the record as thus being made up. The published statistics of the libraries of the country show that the library of the Kansas Historical Society is the largest historical library west of the Mississippi river, and the largest but one west of the Alleghany Mountains. When it is considered that this library is not composed of evanescent books of the literature of the day, written and printed for the amusement of the hour, and then no longer sought for reference or for any other use, but that it chiefly contains the original records of the facts in the history of our own pioneer people, of the first generation of the founders and builders of the State, it may be well said that when we speak of its remarkable growth in the number of its volumes, we present a feature of but slight consideration compared with that of the character of the volumes which it contains as original materials of history.

And not only is the history of our own people being gathered into this library, but as the law directs, the library is being made one of very widely extended reference, in general history, in science, and in all subjects of social, educational, and literary research.

RELATION OF THE SOCIETY TO THE STATE.

The kind of work being done by the Society, and the relation which it sustains to the State, are peculiar; hence the duties imposed, and the privileges conferred upon it by law, are not so well understood as they should be. There is but one other institution in the country so nearly like this in object and scope, and in its connection with the State, as to admit of comparison. The Wisconsin Historical Society is much like ours, and afforded the model upon which our work in its incipiency was planned and in the main has since been carried forward. Both are voluntary associations. Their members and officers are private citizens elected by the societies. Their mode of work has been devised, and is being carried forward upon plans, rules and regulations made by themselves. But what they do is for the people of the State. Their library and all their collections are the property of the State, placed in rooms provided by the State, and are inalienable and irremovable. The expenses of the work of the Society are chiefly defrayed by the State.

This relation of the State Historical Society to the State is essential to the existence of a historical society in a new State where there are no opulent citizens to found and maintain such a society. So far as there has been any experience in such work, it is the relation best calculated to secure the making up of a public historical collection in any State; a work which it is everywhere conceded every State should have by some means done for it, and the neglect of which is greatly deplored where it has been left undone. Such a society is greatly stimulated to exertion to fulfill the public requirements. Where by law the society is made the trustee and servant of the State its work is not perfunctory like that of the State official, whose term of service is determined upon political considerations. The existence of the Society and its continued support are dependent upon its fulfillment of the public demand and expectation year by year and continually. This has been and must ever be the experience of such a relation to the State of a voluntary association of this character.

LEGAL REQUIREMENTS.

The act of the Legislature of 1879, by which the Society was made the trustee of the State and its collections the property of the State, makes it the duty of the Society to make up a library of "books, maps and other materials illustrative of the history of Kansas in particular and the West generally; . . . to purchase books to supply deficiencies in the various departments of its collections, and to procure by gift and exchange such scientific and historical reports of the Legislatures of other States, of railroads, reports of geological and other scientific surveys, and such other books, maps, charts and materials as will facilitate the investigation of historical, scientific, social, educational and literary subjects, and to cause the same to be properly bound; to catalog the collections of the said Society for the more convenient reference of all persons who may have occasion to consult the same; to biennially prepare for publication a report of its collections and such other matter relating to its transactions as may be useful to the public; and to keep its collections arranged in convenient and suitable rooms, to be provided and furnished by the Secretary of State, as the Board of Directors shall determine."

Considering the novelty of such a relation of a State to an association of its private citizens, it is not surprising that the duties thus imposed by the State and the compensation given for performing them should not for a time be properly adjusted. The Society has not been in the habit of complaining of lack of appreciation and compensation; for the public appreciation has always and everywhere been made most manifest, and the Society has always been confident that the lack of adequate means for carrying on its work would prove to be but temporary. The membership of the Society now extends to every county in the State. The most valuable part of the current accessions to its library, namely the newspaper issues, and locally

printed matter, are being freely contributed by members of the Society, from every county in the State. The faithful performance of the most important part of its work, that of caring for these local contributions, employs more than half the time of the clerical force of the Society. It is not to be supposed that a society whose work is being done wholly for the people of the State, whose working membership embraces every part of the State, and the results of whose work have come to be appreciated by all classes of intelligent people in the State, will remain for a much longer period in a state of embarrassment for want of means to carry forward the work assigned to it.

BROAD FIELD OF WORK.

The duty imposed by the Legislature upon the Society to place in its library with the publications of our own State, those of other States and those of learned, social and scientific institutions generally, so as to make up a library which shall give every citizen of the State facilities for the investigation of "historical, social, educational and literary subjects," are so comprehensive that its library undertaking may be said to be unlimited in its object and scope.

The broad field from which the materials of this library are being gathered has proven to be a very fruitful one. While our best garnerings are from within our own State, the limits of the work of the Society are boundless. So interwoven has been the history of Kansas with that of the principal events of the whole country, and so much has the work of the Society enlisted a general interest, its library has come to be the recipient, largely by gift, of not only the materials of the history of the whole country, but of everything of a literary and scientific character relating to all parts of the country. The library is becoming, at a cost involving little more than that of freight and postage, care and keeping, a library of reference very broad in its scope. Its growth would be far more rapid, and its accessibility and consequent usefulness to the public would be far greater, were adequate means given the Society to employ a sufficient clerical force, and if the State had been able to fulfill its undertaking to furnish "suitable and convenient rooms for the collections."

The State of Kansas in legalizing the work of the State Historical Society and giving such a breadth and scope to the objects aimed to be accomplished by it, intended no half-way work. The action of the Legislature was prompted by the conviction which has always rested in the minds of our people, that Kansas has made and is making a history unique in its character and unparalleled in the magnitude of the principles which had been and are being vindicated and exemplified on our soil. The materials of our own history, and of our world-wide related history, are such as no State ever before had spread out for the gathering.

And the willing helpers in the work are as widespread as are the materials. The interest in the work of the Kansas Historical Society is as broad

as the country itself. Said the Secretary of the Massachusetts Historical Society: "Massachusetts helped to redeem and make Kansas,—it will help its Historical Society." Said Henry Ward Beecher in accepting a membership in our Society: "I need not say how deep an interest I have taken in her noble progress and renowned prosperity. She well deserves the title 'New England of the West.'" Said William Lloyd Garrison: "The formation of such a society is cause for special congratulation, and an event of historical importance far beyond the limits of the State;—for there is nothing more thrilling in American history than the struggle to secure freedom and free institutions to Kansas—a struggle which, if it had terminated otherwise than it did, would have been fraught with appalling consequences not only to the State itself, but to the whole country. How different would have been the fate of Kansas, if slavery had been successfully established upon her soil! Under the plastic hand of freedom, how astonishing has been her growth in intelligence, industry, enterprise, population, and material prosperity; and at the present time what strides she is making in developing her ample resources, and how irresistible is the magnetism by which she is drawing to herself from all quarters a mighty immigration that can scarcely fail to place her, ere long, in the front rank of States. This is her fitting recompense for having gone through a baptism of blood and an ordeal of fire with such firmness and devotion to the sacred cause of freedom. May her 'peace be as a river,' and her 'prosperity as the waves of the sea.'"

It is in the preservation of the materials of the history of the growth and development of Kansas during the past thirteen years that the work of the Society is most complete and comprehensive. Before our Society had begun its work, the printed materials of the history of the earlier days had in large part been dissipated and destroyed. The materials of the present day, as they are daily and weekly being issued from more than a thousand busy printing-presses, are all being saved in the library of our Society. In its growth and development Kansas has gone forward until it has reached, with all the appliances of the best civilization the world has ever known, the remotest boundaries of our State; and now are to be found newspaper presses in every county. These papers make a record, week by week, of all the events occurring in the growth of these new counties, and complete files of all are being preserved in the library of the State Historical Society, the gift of their generous and thoughtful publishers.

PROVINCE OF A HISTORICAL SOCIETY.

That the Kansas State Historical Society is well fulfilling the mission assigned it by the Legislature, and according to the highest standards established for an institution charged by a State with the duty of forming a library of historical and other materials for the use of the people, may be quoted here a single testimonial as to what ought to be done for the accom-

plishment of such object. It is the testimony of Dr. Henry A. Homes, who for forty years, and till his death a few months since, was the eminent librarian of the general library of the State of New York. It is found in an article prepared by him contained in the United States Government publication entitled, "Public Libraries in the United States of America; their History, Condition, and Management," published by the Department of the Interior, in 1876. In a paragraph in which he makes a statement of the special province of a general State library, as distinct and separate from that of a library of law reports, statutes, journals of the Legislature, and State documents, he says:

"A State library will, of course, make it one of its special aims to collect works of American history in general just so far as the means at its disposal will admit. But of all the purposes for which it exists, none respond so directly to the wants of the largest number of the citizens of a State as to aim to collect all the materials accessible to illustrate the history of the State, its counties, its towns, and its citizens. The authorities of the library will therefore be attentive to secure all local histories and biographies, manuscript collections of the papers of its eminent citizens, the official proceedings of all counties and towns, reports of all societies, charitable, commercial, manufacturing, military and secret, and as many of the newspapers printed in the State as can be obtained, with its almanacs, and business and town directories. To these will naturally be added works in science and the arts which relate more particularly to the productions of the State. An honorable historic consciousness will be promoted by securing works of merit of all kinds written by citizens of the State."

NEWSPAPERS AS MATERIALS OF HISTORY.

The following is quoted from the same high authority:

"Much might be said regarding the value of the different classes of books just mentioned, a value which grows with successive years. We will, however, single out from among them for particular notice the class of newspapers. For many towns and counties they are the only printed record of the earliest facts of local history. Their value in libraries is already recognized in our Western States. The Indiana State Library receives twenty-eight newspapers as an annual gift; Minnesota was receiving forty in 1862; and Ohio received twenty-eight. The New Jersey Library invites donations of the same kind. There can be little doubt that the publishers of a large proportion of the newspapers of any State would preserve and give to the State the file of each year, on the single condition that it should be promptly bound and be made accessible to the public. It would be equitable and useful to provide by statute that each publisher sending a newspaper should receive a copy of the laws of the session."

This eminent librarian singles out from among the most important of all the subjects of collection the local newspaper. And yet what a meager showing he makes as to what the State libraries of the country were twelve years ago doing in this department of work: Indiana, twenty-eight newspapers; Minnesota, forty; Ohio, twenty-eight. And they are doing no better to-day. State libraries never have effectively done the most appropriate work for a library of local history and general reference for the

people. They have a paramount object besides, and to that their chief work is naturally and necessarily confined.

It was left to the voluntary associations of private citizens forming the Wisconsin Historical Society and the Kansas Historical Society, to properly inaugurate and carry forward this kind of work. The board of directors of the Wisconsin Historical Society at their annual meeting in January last, reported as contained in their library, 5,240 volumes of newspaper files; and to this class of library materials they particularly refer as being "the fountain-head of modern history."

SPIRIT OF THE KANSAS PRESS.

The New York State Librarian suggested that publishers should be compensated for their newspapers. That might do for New York, Indiana, and Ohio. But Kansas newspaper publishers see the matter in a different light; it was they who organized the Society, and no sooner was it organized than they began freely to give their regular issues. Not only that, but the veteran editor who had published his paper from away back in the early history of Kansas Territory got together his scattered duplicates until he had made up for the Society a complete file, not a number missing. At least one file thus given we have, covering a period now of more than thirty years. So the publisher of the newspaper starting in a frontier county, hearing of the work our Society is doing, of which he is pretty sure to hear even before his first issue is out, with alacrity puts the State Historical Society on his mail book. Thus the work of the newspaper man's enterprise, zeal and ambition goes to posterity. And who shall say that he will not do better work; more for the good of the people a history of whose doings he records, than if he felt that the issues from his press were but for a day, speedily to pass from the face of the earth as has been the common experience where no historical society has existed to save the issues of the press and place them between fire-proof walls built by the State for the preservation of its sacred archives. The newspaper men and women of Kansas are putting it in the power of the Historical Society which they founded to do better work in making up a library of the best materials of local history than is being done by any other society or institution in the world.

That the publishers of Kansas newspapers appreciate the work being done by the Historical Society which they established, a single quotation may be given from among hundreds. Says the editor of a leading daily:

"This Society, as its name implies, is the custodian and conservator of the history of Kansas. A copy of almost every newspaper published in this State, from its organization, and prior to that period, through its earliest Territorial days, may be found on file in its rooms. From that established in 1854 down to the journals of to-day, a copy of each is there carefully preserved, thus making a continuous and unbroken history of the State to-day. A copy of every book written, by Kansans, may be found on its shelves; so of thousands of foreign newspapers and pamphlets; and all the addresses and speeches embodying matters relating to Kan-

sas affairs are there compiled and stowed away. A copy of each annual Agricultural Report, which, by the way, are the fullest, completest, and most accurate reports of the kind prepared by any State in the Union, is there preserved. Copies of the proceedings of every Legislature and every State convention, a record of the minutes of every important public gathering ever held in Kansas, are kept there. The walls and cases of this office are adorned with portraits of Governors of Kansas, of many other historical characters, and of the various Territorial and State Legislatures. Glass cases arranged about the rooms contain Kansas relics of all sorts, conveniently placed. In short, everything of an historical character is being gathered up and consigned to its proper place in the archives of this Society.

"The value of our State Historical Society, aside from its general purposes, as the custodian of Kansas history, as an aid in litigation, can hardly be overestimated. A prominent attorney of this city a few years ago, in an important patent case, found himself compelled to establish a certain date and fact vital to his client. He searched high and low, far and near, without avail. At last it occurred to him that he might at least get a clue from the State Historical Society. He went to Topeka and was handed by the Secretary of the Society the public directory containing the very date and fact he needed.

"The men who organized this Society builded better than they knew. Their efforts to maintain it through all these years have already been amply rewarded in the practical as well as sentimental benefit it has conferred upon the citizens of Kansas, and the appropriations made by the Legislature for its support have been among the best investments the State has ever made. Its utility will be more appreciated from year to year, and long after its projectors and present patrons have passed from the stage of action, its work and accumulations will abide among the most cherished possessions of the Kansans who are to be."

THE WORK EXCEEDS THE MEANS.

The law makes it the duty of the Society to catalog this library. This calls for consideration the subject of the long-continued embarrassment of the Society for want of adequate appropriations by the Legislature to carry on its work, a subject which has been repeatedly presented before in these reports. The present very poorly paid clerical force is insufficient to properly perform the current work of the Society, which has hitherto been necessarily confined to that of gathering in the accumulations, making a record of them, having them bound, classifying and arranging them on the shelves, acknowledging gifts, and conducting the very extensive correspondence involved in reaching out for material, widely scattered as are the people who have for manifest causes had connection with the events of Kansas history from the earliest days. It has thus far been impossible to comply with the requirement to catalog the library. The meager appropriations have compelled the payment to the clerks employed of less than one-half the amount paid to employes in other departments of the State. Double the amount should be paid to present employes, and an additional force should be employed. The scanty provision made by the State to enable the Society to perform its work has no precedent in the legislation of any State. While Kansas gives \$4,250 to its Historical Society, Wisconsin has for many years given annually more than \$9,000.

LACK OF ROOM.

The present embarrassment of the Society for lack of room for its collections, and the urgent demand at this time that provision shall be made in the State Capitol when completed for the future needs of this library, must again be mentioned.

The law, as has been quoted, has made it the duty of the Secretary of State to furnish convenient and suitable rooms for the library and collections, such as the Board of Directors of the Society shall determine. Of course it has been thus far out of the power of the Secretary of State or any other authority to comply with this requirement in the uncompleted state of the Capitol building. But in view of the progress being made toward the completion of the Capitol, at the annual meeting two years ago, the Board presented the subject in its report to the Society, and, during the session of the Legislature following, a conference was held between the legislative committee of the Society and the joint committee of the Legislature on the State Library, to whom the Governor's recommendation, that proper legislation should be had for the maintenance of the work of the Society, had been referred. The committee of the Legislature responded to the wishes of our committee, and the following concurrent resolution was introduced by the committee in the House of Representatives, and was adopted:

HOUSE CONCURRENT RESOLUTION No. 22, 1887.—*“Be it resolved by the House of Representatives, the Senate concurring therein, That the State House Commissioners be, and they are hereby instructed, that in the preparation of the plan of the main building of the State House, and in the assignment of rooms, ample provision be made for the valuable collections of historical material of the State Historical Society, and for its future growth.”*

When the resolution came before the Senate it failed to pass. A committee has been appointed by the Board of Directors to confer with the Executive Council and the Legislature in relation to rooms for the library and collections of the Society in the Capitol when completed.

SOCIETY'S SEAL.

During last year, at the suggestion of President Wilder, an engraved seal for the Society's use, with a design deemed appropriate, was procured to be made in Washington, through the kind offices of Senator Plumb. The design combines the seal of the State of Kansas, with the coats of arms of France and Spain at the periods of the sovereignty of those powers over Louisiana Territory, of which the territory within the bounds of Kansas formed a part.

ADDRESSES BEFORE THE SOCIETY.

At the annual meeting, January 17, 1888, addresses were delivered by the following persons:

Hon. D. W. Wilder delivered the annual address, briefly sketching the

history of the Society. Other addresses were delivered upon subjects pertaining to Kansas history, as follows:

Prof. I. T. Goodnow, Manhattan, Personal Reminiscences, being an account of the founding of Manhattan by a New England Emigrant Aid party in 1855, of which party Prof. Goodnow was the leader.

Hon. S. A. Kingman, Topeka, on the Growth and Development of Kansas.

Prof. W. H. Carruth, Lawrence, on the subject of the Origin of Kansas Geographical Names.

C. A. Hiller, Esq., Salina, on the Padouacas, and other Aboriginal Tribes of Kansas.

C. F. Scott, Iola, on the subject of the Pioneer Press of Kansas.

Hon. H. N. Lester, Syracuse, on the Colonization of the Upper Arkansas Valley in Kansas.

Hon. J. Ware Butterfield, Florence, on the subject of the Kansas Historical Society, the character of its work, and the importance of maintaining it.

Noble L. Prentis, Newton, on the subject of the Swedish, Bohemian, Irish, and other colonies of foreigners in Kansas.

Historical papers were prepared and presented to the meeting by persons who were not present, as follows:

John P. Jones, of Coldwater, on the subject of the alleged Exploration of Lieut. Du Tisne, in 1719, of the country of the Osages, Pawnees and Padouacas.

J. S. Painter, of Garden City, on Southwestern Kansas, its settlement, development, and transformation.

Prof. C. A. Swensson, of Lindsborg, on the History of the Swedish American settlements in Kansas.

Printed or manuscript copies of most of these addresses and papers are in the files of the Society, and should form a part of a volume of collections which should be published at an early day.

TERM OF OFFICE OF PRESIDENT.

At the annual meeting in January, 1888, Hon. D. W. Wilder, having held the office of President for one year, resigned the position, and Hon. Edward Russell of Lawrence was elected in his stead for the unexpired term of one year. This was done in pursuance of the suggestion made by Gen. Wilder and approved by a vote of the Board of Directors, that it would be better for the interests of the Society that the term of the office of President should be but for one year, instead of two years as provided in the constitution.

An amendment of the constitution for this object has been proposed and placed in the minutes of the Society for consideration at the annual meeting in 1889. It is in the following words:

“The elective officers of the Society shall consist of a President and two Vice-Presidents, who shall hold their offices for the term of one year, and until their successors shall be chosen; a Secretary and a Treasurer, who shall hold their offices for the term of two years, and until their successors shall be chosen; said officers to be chosen by the Board of Directors from their members, their election to be made at the first meeting of the Board subsequent to the annual meeting of the Society, and their terms of office shall begin at the date of their election and qualification in office.”

At this meeting, also, Hon. William A. Phillips, of Salina, was elected one of the Vice-Presidents, in the place of Hon. Henry H. Williams, who has removed from the State.

REPORT.

THE Board of Directors presents the following report of the work of the Society during the two years ending November 18, 1890.

Bound volumes added to the library, 2,260; unbound volumes and pamphlets, 5,208; volumes of newspapers and periodicals, 2,153; single newspapers and newspaper cuttings containing special historical matter, 5,950; maps, atlases and charts, 99; manuscripts, 951; pictures and other works of art, 514; scrip, currency and coin, 43; war relics, 19; miscellaneous contributions, 525.

From this statement it will be seen that the library additions proper, of books, pamphlets and periodicals during the two years number 9,621 volumes. Of these, 9,237 have been procured by gift and exchanges, and 384 by purchase.

The total of the library at the present time is as follows, namely: 12,231 bound volumes, 35,561 unbound volumes and pamphlets, and 10,134 bound newspaper files and volumes of periodicals; in all, 57,926 volumes.

CHARACTER OF THE LIBRARY.

The library accessions have somewhat exceeded in number the average of former periods. They have been of the same general character. The purchases of books have been chiefly confined to works more or less directly

pertaining to Kansas. Gifts and exchanges have been more miscellaneous. As formerly, they have been largely the publications of the educational, scientific, social, charitable and economic departments of other States and of the United States Government; and of the publications of the voluntary societies and institutions of this and of foreign countries. These go to enrich our library in those departments which so much at the present time engage the attention of students and writers seeking full and exact information as to the social and economic problems of the day. Our library is constantly consulted by such inquirers, not merely of the locality of Topeka, but from all parts of the State.

While our accessions have been largely such as pertain to the history and progress of the State and country in the more remote past, they have been complete in the collection of the materials of the history of Kansas for the period of the two years covered by this report. It is the work of saving the materials of the history and of the intellectual and moral life of the present, that a historical society in the final summing-up has been found to have been most useful. The books and pamphlets issued from the press of Kansas have been more numerous during the past two years than in any other like period. These have all been gathered into our library. They embrace a wide range of subjects, historical, social, political, scientific, and literary.

The addition to the number of volumes of our newspapers and periodicals continues to be a marked feature in the growth of our library. Experience brings constant proof of the great value of this department. We have now 10,050 volumes of this class. Of these, nearly 8,000 volumes are of Kansas newspapers. These represent every county and considerable town in the State. They contain the social, political and economic history of every county and locality. In very large part they are the only files of such papers that have been preserved, and therefore are the only records in existence of a large portion of the local information which they contain. These files are consulted by people of all classes. They are consulted by teachers, students, and local historians and writers for information as to the early settlements, the organization of societies, churches, schools, corporations, and municipal government; by political and other writers for the proceedings of political conventions and all public gatherings, and for the records of public men; and they are consulted by attorneys and public officers for official and legal notices.

Historical writers in these days seek for original information as to the early beginnings and the every-day progress of the social life of the people. And they have come to learn that it is in the columns of the daily and weekly newspaper that this information has been most fully recorded, and that nowhere else are exact data to be found. Teachers and students in our educational institutions are more and more learning that the study of the history and development of their own State and locality are worthy of their attention, and our files are frequently being consulted by attendants upon schools and colleges in all parts of the State. No little of the correspondence of the Secretary is employed in giving information sought by students, teachers, and

other inquirers for such local information. It is a matter of congratulation and pride that in its number of volumes of newspapers, our library far exceeds, in its own local domain, that of any other library in any other State or country.

The regular issues of all newspapers and periodicals now being published in Kansas are being freely given to the Society by the publishers; of all classes, parties and creeds. The bound files are being constantly consulted by people of all classes; for facts of local and general history, of science, public economy, and social life. The truth of the testimony of the best librarians of the country as to the usefulness of newspaper files, is every day being verified in the use which the people are making of the files in our library. In organizing this branch of the work of the Society, we were guided in the outset by such advice as that given by Hon. A. R. Spofford, who has long been the librarian of the Congressional Library at Washington, the largest library in America. That veteran librarian says:

“While the files of the journals of any period furnish, unquestionably, the best instruments for the history of that epoch, it is lamentable to reflect that so little care has ever been taken to preserve a fair representation of those of any age. The destiny of nearly all newspapers is swift destruction, and even those which are preserved, commonly survive in a provokingly fragmentary state. The obvious causes of the rapid disappearance of periodical literature are its volume, necessarily increasing every year, the difficulty of lodging the files of any long period in our narrow apartments, and the continual demand for paper for the uses of trade. To these must be added the great cost of binding files of journals, increasing in the direct ratio of the size of the volumes. As so formidable an expense can be incurred by very few private subscribers to periodicals, so much the more important is it that the public libraries should not neglect a duty which they owe to their generation as well as to those that are to follow. These poor journals of to-day, which everybody is ready to stigmatize as trash not worth the room to store or the money to bind, are the very materials which the man of the future will search for with eagerness, and for some of which he will be ready to pay their weight in gold. These representatives of the commercial, industrial, inventive, social, literary, political, moral and religious life of the times, should be preserved and handed down to posterity with sedulous care. No historian, or other writer on any subject, who would write conscientiously or with full information, can afford to neglect this fruitful mine of the journals, where his richest materials are to be found.”

During the past few months a great change has taken place in the political character of Kansas newspapers. Nearly one hundred have been established to promote the political views of an organization new to Kansas politics; or have changed from allegiance to other organizations to support the views of this. Whether it shall prove that this change shall mark the beginning of a permanent era in political progress, or whether it shall prove to have been but a manifestation of temporary discontent as the result of temporary depression, it is certain that our Historical Society has preserved the fullest record of the history of a widespread and profound political agitation among the people ever preserved in any State or country. Fifteen years ago the Kansas State Historical Society was organized, as was said in the first paper drawn in contemplation of its organization, “for the purpose of saving the

present and past records of our twenty-one years of eventful history." These words looked backward to the gathering of the materials of the proud history which Kansas had before that time made. But Kansas had not then stopped making history. The work has since gone steadily forward. The State Historical Society succeeded beyond all expectations in gathering up the materials of the former history. At the same time it has carefully and industriously saved the materials of the history of current events, and of all social, material and political movements since it was organized. It is now found that the record of the history since the Society was formed is of little less value than that of what had occurred before. As individuals, or as members of social organizations, or political parties, we may not always be satisfied with the record; the record may, indeed, be that of sore disappointment. But in the final summing-up, when the people of the future generations for whom the work of the Historical Society is done, shall pass upon the usefulness to them of our collections, they will bless us that we have preserved all the materials of the history of all that has transpired.

Among the larger gifts of books and pamphlets, besides those coming from our own citizens have been as usual many from the East; given by persons whose life-work seems to be largely that of aiding to build up libraries, as a means of promoting education among the people, and whose attention has been drawn to Kansas by influences which have ever made this the favorite State for the expenditure of benevolences, and for the promotion of enterprises in the interest of human progress. Of the larger contributors the following names may be mentioned: Dr. Samuel A. Green, Rev. Dr. Caleb D. Bradlee, and Mr. J. P. Mendum, all of Boston; Prof. A. S. Gatschet, of Washington, D. C.; and, of our own State, Hon. D. W. Wilder, Rev. J. W. D. Anderson, Rev. M. O. Harrington, Rev. D. D. Proper, and Messrs. A. S. Huling, L. R. Elliott, Frank A. Root, F. O. Popenoe, and C. E. Pond.

The manuscript accessions as usual have been large, and the papers acquired are of much historical interest. Those contributed by Col. D. H. Horne, Rev. Dr. Bradlee, Col. William A. Phillips, Benjamin Singleton, Sidney Hayden, W. H. R. Lykins, and William Barnes, are especially worthy of mention. Those of Mr. Lykins relate to early movements among Kansas settlers in securing titles to their lands and in the sale and distribution of town-lot interests. Those given by Mr. Barnes are papers which show the work of an Eastern emigrant aid organization in promoting the colonization of Kansas, influenced largely by an interest in the Free-State side of the great political struggle which convulsed the country during the early years of the Territorial period.

The accessions of pictures and portraits have been large. Noteworthy among these are the portraits of members of the Legislature, and State officers, and of other public men and prominent citizens of the State; some of which, as those of Hon. E. P. McCabe, Hon. F. P. Baker, Hon. E. N. Morrill, Gov. John A. Martin, and of Chief Justice A. H. Horton, are of large size, and executed in a high style of the photographic art or of that of the painter's

skill. A gift to the Society of a plaster copy of Brackett's bust of John Brown, given by Mrs. Mary E. Stearns, of Medford, Massachusetts, is worthy of special mention, especially as this is but one of eight given by the donor and her friends in Massachusetts to different societies and institutions in Kansas. A lifelike statuette of Henry Ward Beecher, given by Maj. J. B. Pond, of New York, is an attractive object in our rooms.

Among the larger accessions of volumes of newspaper files will be noticed those contributed to the library by Prof. I. T. Goodnow, Hon. John Speer, Hon. F. P. Baker, Hon. James R. Mead, Dr. Caleb D. Bradlee, and Hon. John Maloy.

Interesting war and other relics have been given the Society by Hon. John Davis, W. W. Phillips, Esq., Hon. L. D. Bailey, W. H. H. Fox, Rev. Dr. Bradlee, Hon. Sol. Miller, Hon. A. D. Walker, Mr. T. A. Stanley, and Manhattan Lodge of I. O. O. F., the last mentioned being that of the sword of Gov. Green, of the war of the Rebellion.

CATALOG.

The last Legislature increased the appropriation for the Society in the item of clerk hire with the view to the cataloging of our library. Much time has been given during the past year and a half to this work. It is a measure of great importance, as it is intended through such catalog to exhibit to the public a detailed showing of what the library contains, and to make its entire contents accessible for reference. This work has so far progressed as to promise the early publication of a first volume. It was confidently expected that such a volume would have been issued before the present time. It is a work requiring the greatest care in order to insure accuracy and completeness; and all experience in library cataloging has shown that the measure of time within which such work can be accomplished cannot be correctly estimated.

The first volume, now in preparation, will consist of and be confined to a catalog of matter exclusively pertaining to Kansas. It will show the works of Kansas history, literature, science, and all books and pamphlets which have been written and published in Kansas or about Kansas, with indexes in many instances showing their particular contents. It will show the various Kansas church and society publications. It will give an index to Kansas documentary history, showing the publications of the Legislature, of the State executive departments, and the State charitable, educational, and other institutions. It will point out those numerous Congressional and executive papers of the United States Government, issued during the period of our Territorial history, and published in the United States documentary volumes, with full indexes to the most important of this class. Subsequent volumes of the catalog will show the manuscript and museum collections of the Society and the various works of history, science, political and social economy, which go to make up the general library.

FOURTH VOLUME.

During the present year the Secretary has compiled and had published the fourth volume of the Collections of the Society. This volume makes an exhibit of the work of the Society during the four years preceding the period covered by this report, and includes the historical papers presented at the several annual and other meetings held in that time. It also contains the official correspondence pertaining to the office of Governor of Kansas Territory during the latter part of Gov. Shannon's administration in 1856, and of Governor Geary's administration from September 9, 1856, to March 10, 1857, including the official executive minutes kept by Gov. Geary. These documents relate to a considerable portion of the most stirring period of Kansas Territorial history. They have been gathered from Congressional documents published about that period. These documents have hitherto lain hidden from the general public, and much of what they contain will be found to be new to students of Kansas history. The book has an alphabetical index of sixty pages, pointing to every subject and almost every name contained in it; also a chronological index to the contents of the public documents. These official papers, added to those pertaining to the administrations of Gov. Reeder and Gov. Shannon contained in our third volume of Collections, make a full record of this class of historical material through the first three and a half years of Kansas Territorial history.

ROOMS.

As the Capitol building is soon to be completed, it is to be hoped that not many months will elapse before the Society will have given it suitable accommodations for its library and collections and ample provision for its future growth. This subject will no doubt have the careful attention of the appropriate committee of the Society.

UNION OF LIBRARIES.

The State Senate at the last session of the Legislature appointed a committee to devise and to recommend to the Senate at the coming session of the Legislature measures of legislation, amendatory of existing laws, for the more effective and economical administration of the State government in its various departments. The committee invited our State Historical Society to make suggestions of changes which might be desirable in the law governing the Society. The subject was considered by members of your executive committee, and a draft of a bill to take the place of the present law was prepared and given the Senate committee. The proposed bill contained substantially the provisions of the existing law; making the Society the trustee of the State, responsible to the State for all its work, and making its entire collections the property of the State, to be kept in the State Capitol for the use of all the people for all time. The bill placed the financial administration and general management of the Society more under the care and control of the executive officers of the State, by

providing that the Governor and other constitutional State officers shall, by virtue of office, be members of the Board of Directors, and that they shall compose a majority of the committee to audit accounts, to make rules governing the care of the library, and to supervise the purchase of books, and the expenditure of all moneys appropriated by the Legislature for the use of the Society.

It seems that the Senate committee, instead of approving the legislation proposed by our committee, propose a consolidation of the State Historical Society with the State Library, virtually abolishing the State Historical Society. But it is hardly to be presumed that the Legislature would seriously entertain a proposition of this kind.

Such legislation as would bring the two institutions into relations which would harmonize and economize the library work of the State would no doubt be desirable; for economy to the State, for the convenience of users of the two libraries, and as promotive of efficient work in the collection of such library materials as should be brought together in the State Capitol for public use. Such a measure, or one virtually contemplating the same object, was, early in the existence of the State Historical Society, considered by our board of directors in conference with the Trustees of the State Library. The Board of Directors proposed to the trustees that a line of distinction should be drawn between the two libraries; that the State Library should be confined to what is always the primary and essential work of State libraries, that of making up a library of books of law and of such works of reference as may be needed for the use of the Supreme Court and attorneys practicing therein, and by State officers and the Legislature; and that the State Historical Society should have given to it the miscellaneous department of the State Library; the work of which has been, so far as it has gone, essentially of the same character as that of the State Historical Society. This would be a clear line of demarkation; and it is one which experience in other States has proven to be practicable and efficient. In the State of New York, under the care of the Regents of the State University, the State Library has grown up with such a division, there being separate libraries and separate librarians for the law and for the miscellaneous, or the general library, as it is there called. In Wisconsin, where of all States the State Library work has been done most efficiently, this line of distinction has been for thirty-five years in force. There the State Library has the law side and the State Historical Society has the miscellaneous and historical side. The one has grown up with ample maintenance for official and judicial use, and the other is equally well supported in gathering a library of the materials of the history of the State and of the social, political and scientific history of the country. No other State in the Union possesses so valuable a general, historical and miscellaneous library as does Wisconsin.

But the Trustees of the State Library, upon consideration found that existing laws did not authorize them to accept the proposal of the State Historical Society. Such authority has not yet been given by the Legislature;

and for fifteen years the two libraries have been growing up in more or less conflict, and with more or less detriment to public economy and to public usefulness. This legislation, it would seem, should now be had; legislation clearly defining the work of the two institutions, giving to the State Library its essential and appropriate work of providing for the needs of the Supreme Court, and to the State Historical Society that of making up a reference library of history, science, political and social economy, and of such materials as will be useful to students of the history of their State and of the country.

There are but few examples showing the experience of other States in an effort to make up a full general or historical library; in but few of the States are such libraries being built up and maintained by the State. In almost all of the States there is one so called State Library. This is under the control of the Governor, or of the judicial department of the State, and the collection of books is almost exclusively confined to law books and books of reference for the use of the Supreme Court. Beyond this object little attention is given to the building up of a library. But in States where historical societies have been maintained by the State, their chief object being the making up of a library of the materials of the State, and all its localities, such institutions have become the pride and glory of the people. And where the State has failed to have this work done the neglect has eventually come to be deplored by all.

All experience has proven that historical societies, connected with the State and made responsible to the State, as is our society, do the work of building up a general library and a library of historical materials for the use of the people far more effectively than do State libraries however managed. The general side, the miscellaneous side, the historical side of a State library, by whatever name it may be called, if under the management of a sole executive officer of the State or of the judicial department of the State, is more remotely in contact with the people, is less directly in sympathetic communication with the people; its managing board is not so immediately responsible to the people; and above all, its entire work is not done for the use of the whole people. What is done on the popular side is only of secondary consideration compared with the primary object of the existence of the library.

On the other hand, with the suggested line of separation, the historical or miscellaneous side of the work given to a State historical society composed of an interested membership of the more intelligent citizens of the State, residing in all parts of the State, the work is carried on efficiently and with a view to the benefit of the whole people. Such a society engages the popular interest. Its library comes to be held in esteem by all the people, as a place where all may resort for the examination of original sources of information, as to the earliest and latest events. The citizen takes pride in contributing to such a library, and its accessions come to be made up in large part, from year to year, by voluntary gifts. Besides the gratification of serving the State through contributions to an honored institution of the State, and in so

doing contributing to that which will promote the education of the people, it often happens that donors find here a means by which their library treasures, which might otherwise become scattered and lost to good uses, may be kept together and made of perpetual benefit. The increase of such libraries is found to be in greater ratio year by year. They seem to contain within themselves a principle of acceleration, and to illustrate the truth of the maxim that "To him that hath shall be given." Such has been the experience in the growth of our Historical Society. For fifteen years it has been maintained by the State, and has sustained a growth and popularity unprecedented.

The Board of Directors calls attention to this subject at the present time, because it is one of vital interest to the Society. The just demand of the people for an economical administration of public affairs applies to the library work of the State, and should be enforced. The library materials of the State must soon be given new places in the completed Capitol building. There is every reason why the Legislature should permanently establish a plan for the State Library work. It is the duty of the Society to see to it that the work in which it has been so long engaged at the demand of the people and with their manifest approval, should not be sacrificed or its efficiency impaired.

REPORT.

Herewith the Board of Directors of the Kansas State Historical Society presents the report of the work of the Society during the two years ending November 15, 1892.

There have been added to the library of the Society during the two years, 2,183 volumes of books; unbound volumes and pamphlets, 7,710; volumes of newspapers and periodicals, 2,499; single newspapers containing matter of special historical interest, 734; maps, atlases, and charts, 3,253; manuscripts, 556; pictures and other works of art, 183; scrip, currency, and coin, 81; war relics, 23; miscellaneous contributions, 443.

From this statement it will be seen that the library additions proper, of books, pamphlets, newspapers, and periodicals, during the two years, number 12,392 volumes. Of these, 11,796 have been procured by gift and exchanges, and 596 by purchase.

The total of the library at the present time is as follows, namely: 14,414 bound volumes; 43,271 unbound volumes and pamphlets; and 12,633 bound newspaper files and volumes of periodicals; in all, 70,318 volumes.

The Kansas State Historical Society had its origin in action taken by the editors and publishers of Kansas. At a meeting of the State Editors' and Publishers' Association in 1875, a resolution was adopted, under which a committee was appointed, in the language of the resolution, "for the purpose of saving the present and past records of our 21 years of eventful history." The events of 17 years have since been added to those of the period named. The Society began as a voluntary association, without recognition by the State. But it brought its collections into the State House from the first. Soon the value of its work became recognized by the State; means were appropriated by the Legislature for its support, and rooms in the Capitol building were designated for its use. In 1879 a law was passed making the Society the trustee of the State, and defining its duties and its relations to the State. The law declares the collections of the Society to be the property of the State, and the Society has accepted the conditions imposed by this provision. The law broadened the scope of the work of the Society beyond that of a mere collection of Kansas historical materials, to that of making up a general library of reference, especially in the departments of history, science, sociology, and the useful arts. To augment its collections, the law gives the Society 60 bound copies each of the publications of the State and its various institutions, for use in exchanges with other societies and institutions; and for the yearly use of the Society, a small sum is appropriated for the purchase of books to supply deficiencies in the various departments.

Under these fostering provisions, a library of reference in the departments contemplated has grown up not exceeded in the number of its volumes and in their value as such materials by more than one library west of the Alleghany mountains. There are other historical society libraries which have long been receiving far greater appropriations for the purchase of library accessions, but not one has grown more rapidly. This fact of the rapid growth of our library by gifts is no doubt in no small measure attributable to the prominence which Kansas has had from the beginning of its history in affairs of world-wide interest. The events of the territorial period of our history were the prelude to the civil war. From that time to the present, Kansas has been eventful in social progress and in political agitation. The fact that such a State is making up a historical, scientific and political library has attracted the attention of the libraries and institutions, not only of this entire country, but of the world. Our society makes exchanges with libraries and institutions in all of the States, and in many foreign countries. Thus this library is being made up with little cost to the State.

From lists and statements appended to this report, it will be seen that the growth of the library and collections has been equal to that of former periods, and, in important respects, greater. Our lists of acknowledgments show that the accessions by gift and exchange during the past two years have come from more than 2,000 different sources. More than half of the persons, societies and institutions giving these publications reside outside of Kansas.

The gifts relate to the history and progress of the country, from the earliest to the latest period. They are very largely of those classes of library materials which record in particular detail the events of the period covered by the report, events in all the affairs of human activity; they record the thoughts, the sentiments, the social movements, and the efforts at human progress in all respects.

BOOKS.

The growth of the library in books of historical reference of permanent value has been very gratifying. By exchanges effected through the Interior Department at Washington, 331 volumes of the publications of the United States Government of a political and scientific character have the past two years been added. The gift of 513 volumes of books, made by the Thomas Crane Library, of Quincy, Mass., is one of great interest. The books are largely United States Government records, beginning with those of the First Congress, which met in New York in 1789. These contain the definite and detailed history of the very beginning^s of our permanent national existence. These books came from the home of two Presidents of the United States. Some of them contain the autograph of one of these, John Quincy Adams, of whose library they once formed a part. They are the direct gift of Hon. Chas. Francis Adams, a worthy descendent of the line, who is the present trustee of the library which held these books as duplicates. To our former Kansas citizen of the territorial period, Hon. Chas. A. Foster, of Osawatomie, the Society is indebted for the thoughtful act of calling the attention of Mr. Adams to the appropriateness of this gift. The gift is an illustration of the fact that, in its effort to preserve the materials of its history, Kansas has the interest and sympathy of intelligent and liberal people throughout the country.

Hon. Thomas Ryan, United States Minister to Mexico, always a liberal contributor to the library of the Society, has given, during the two years, 197 volumes of books from his private collection. Prof. I. T. Goodnow, a devoted literary collector through all the years of Kansas life, has given from his own store 13 books and 837 pamphlets. Dr. Samuel A. Green, of the Massachusetts Historical Society, has continued to enrich our library, by the gift, during the two years, of 35 books and 187 pamphlets. The long list of contributors of this class is remarkable, as showing the sources of the growth of our library.

PAMPHLETS.

The pamphlet accessions, 7,502 in number, are in large part the reports of societies and institutions. These show the work of numberless thoughtful and earnest people, engaged in individual or in associated endeavor to promote some movement or some measure intended to benefit mankind. Of the historical value of this class of library materials, Lord Beaconsfield once said: "Pamphlets, those leaves of an hour, and volumes of a season, and even of a week, slight and evanescent as they appear, and scorned at by opposite par-

ties, while each cherishes its own, are in truth the records of the public mind—the secret history of a people.”

NEWSPAPERS AND PERIODICALS.

It is with gratification that we refer to the continued evidences of the usefulness of the newspaper department of our Society. While at all times our newspaper files are found the best source of information as to what has transpired in all affairs in all parts of the State, their usefulness is made more especially apparent during the progress of great political canvasses. It is then that the political platforms of the past are reëxamined, and the records which have been made by candidates in former years are scrutinized. In these times of quick and close communication, by telegraph, telephone, and railroads, the people of the State are at such times brought into the closest communication. The whole people confer together as in one assembly. Every possible thing bearing upon questions at issue and upon the characters of men up for office is discussed by all. What a county platform may contain, adopted years ago in the farthest corner of the State, comes to be considered of prime importance, as affecting the present status of a party or a candidate. Our library, the only place where the facts in full may be established, is at once consulted. Our 9,054 volumes of Kansas newspaper files contain the political records of men and parties in Kansas for all the years that have gone before.

This is but one feature of the value of newspaper files as materials of the history of the past. They contain a record of all in human thought and in human activity in the past. In the language of the late Gov. John A. Martin, who was among the founders and builders up of this Society, these newspaper files contain “every essential fact connected with the growth and development of the communities in which they are published: marriages and deaths; the establishment of business and manufacturing enterprises, and their changes; transfers of property; the erection of all important buildings; the results of elections; the opening of streets; the building of railroads; fires and floods; the municipal policies suggested, discussed, and adopted; and the daily life, thoughts, hopes, triumphs and disappointments of an aspiring and energetic community.” Such is the character of the historical information in the Kansas newspaper files in the library of our State Historical Society respecting every county and every community in the State. There is no part of the State whose history in all these particulars is not here to be found.

What Kansas is doing in saving materials of the history of the State through its newspaper files is being done to a considerable extent by other Western historical societies, but by none to so great an extent as by our Society. Our example is awakening Eastern historical societies to the importance of this work. Says the report of the Connecticut Historical Society for 1891: “It is admitted by all that newspapers are the one great source of printed material for the making of history. Also that the historical societies

of the East are far behind those at the West in collecting this material. We should certainly keep files of the Connecticut papers."

MANUSCRIPTS.

The manuscript accessions have been unusually large. Among the most valuable of this class ever received into the library of the society is the journal kept by the missionary, Rev. Jotham Meeker, the gift of Mrs. William T. Keith, of Oakland, Cal., the surviving daughter of Mr. Meeker. This journal consists of three books, containing in all 732 closely-written foolscap pages. The entries begin with September 10, 1832, and end with January 4, 1855, the last entry having been made eight days before the death of Mr. Meeker. They give an account of his journey in 1832 from Cincinnati, by the way of the Ohio river, the Ohio canal, and the lakes, to Sault Ste. Marie; of his residence there for a few months, and then of his removal to the Indian Territory—now Kansas—and of his continued residence here until his death. While at Sault Ste. Marie, he invented his remarkable phonetic alphabet, which he adjusted to all Indian languages, and which came to be employed by many missionaries in their early work among the Indians. Coming to the Indian Territory, Mr. Meeker brought with him from Cincinnati a printing press, which he set up at the Shawnee Baptist Mission, a few miles out from Kansas City, and began printing in March, 1834. He printed editions of many instruction books, hymn books, tracts, and portions of the Bible, in the Shawnee, Delaware, Ottawa, and other languages. The alphabet used being strictly phonetic, the task of learning to read was practically only that of learning the characters of the alphabet. Children and adults alike were quickly enabled to read the Bible and other books in their own tongues. Missionary effort became greatly stimulated through the use of this remarkable invention. This journal of Mr. Meeker contains the whole history of his printing. The library of the society contains several of the small books printed by Mr. Meeker in this alphabet. But the Indian languages were not languages of civilization, and no abiding results followed the use of the Meeker phonetic alphabet, except as its use opened to the untutored mind of the Indian the nature and power of the white man's books, and influenced him to have his children taught the white man's language and literature.

The manuscript journal exhibits the daily life of the missionary and his family in the wilderness, and the life and customs, and, in too many instances, the degraded condition, of the rude aborigines, greatly demoralized and corrupted as they were through intercourse with the frontier white people, from contact with whom they had been removed from further east, only again to be subjected to like influences in their new homes in the new Territory.

This journal had remained in the possession of different members of Mr. Meeker's family for more than 37 years since his death. The generous thoughtfulness of the daughter in finally placing it in the library of our Society must always be held in grateful appreciation.

Valuable gifts of manuscripts have been made to the Society by former residents of Kansas who have long been absent. Hon. William Hutchinson, a prominent citizen of Kansas during the territorial period, but who has resided for 30 years past in Washington city, has given upwards of 70 manuscript papers, consisting chiefly of letters of prominent persons who were active in early Kansas affairs. Among the writers appear the names of Dr. W. W. Updegraff, Jas. Redpath, Justin S. Morrill, C. K. Holliday, Henry Harvey, Hugh S. Walsh, W. W. Ross, R. J. Hinton, E. P. Watson, Thos. Ewing, jr., S. C. Pomeroy, Lucy Larcom, Henry J. Adams, Geo. W. Collamore, Marcus J. Parrott, Henry J. Raymond, Gov. A. H. Reeder, Gov. Chas. Robinson, Geo. W. Brown, Dr. Jos. P. Root, Eli Thayer, Augustus Wattles, William Hutchinson, W. Y. Roberts, A. Curtis, Thos. W. Higginson, C. C. Parker, E. B. Whitman, Mrs. Jennie E. Eddy, Mrs. J. M. Howard, H. Miles Moore, G. W. Hutchinson, O. C. Brown, and W. H. Russell.

Mr. Hutchinson was a member of the Wyandotte constitutional convention, and during the territorial period was a correspondent of the *New York Times*, the *Boston Journal*, and other Eastern papers. He was among the victims of the Lawrence raid of May 21, 1856. Besides the manuscripts mentioned, Mr. Hutchinson has given from his collections a large number of pamphlets and newspapers of great interest as containing materials of Kansas history.

Col. Richard J. Hinton, who was also a citizen of Kansas during the territorial times, as an active newspaper correspondent, and who has been prominent in literary and scientific work at Washington and elsewhere since, has given the Society many valuable manuscripts, chiefly of Kansas territorial and war history, and others of literary interest. Among the writers of these appear the names of President Andrew Jackson, Martin F. Conway, W. D. Howells, Jos. Medill, Fred. P. Stanton, John Swinton, Gen. John McNeil, Gen. S. R. Curtis, Walt Whitman, Richard Realf, Edward E. Ropes, Frank J. Merriam, and S. Hatch. Colonel Hinton was a correspondent of the *New York Tribune*, the *Chicago Tribune*, and other papers. He is the author of the valuable Kansas book entitled, "The Army of the Border," published in 1864, and which contains a very full history of the raid of Gen. Sterling Price, which threatened the destruction of Kansas, and which was repelled by our people. With the manuscripts are also given newspapers, newspaper clippings and other papers containing matter relating to the Kansas territorial history and the history of the civil war.

Orville C. Brown, of Adams, N. Y., has given many manuscripts and papers of much historical interest. Mr. Brown was, more than any other person, the founder of Osawatomie, having, in 1854, settled there with the company that selected the town-site. He possessed comparatively large means, which he expended in improvements. He was one of the largest sufferers from the repeated raids which were made by Pro-Slavery parties upon the town in 1856. The manuscripts given relate in considerable part to Mr. Brown's son, Spen-

cer Kellogg Brown, who, a boy 12 years of age, was taken a prisoner into Missouri at the sacking of Osawatomie, August 30, 1856. Young Brown became an active and daring soldier in the War of the Rebellion, largely in scouting service. He was finally captured by Confederate troops, was confined for a long time in the Mississippi Penitentiary, then taken to Castle Thunder, Richmond, and was there tried, convicted and executed as a spy, under circumstances which left on his father's mind the full belief of his innocence of the offense for which his life was sacrificed in the cause of the Union. The manuscripts and other materials in our library relating to the history, perils and sacrifices of this intrepid boy would make a volume of thrilling interest.

From J. DeWitt Walsh, of North Topeka, have been received 108 manuscript papers of the late Territorial Secretary, Hon. Hugh S. Walsh, relating to the Territorial Legislature of 1858 (the first Free-State Legislature), including vouchers and accounts of members and officers of the Legislature; of W. W. Ross, legislative printer; and of numerous persons furnishing supplies; certified to by Gov. J. W. Denver, C. W. Babcock, President of the Council, G. W. Deitzler, Speaker of the House of Representatives, and Geo. F. Warren, Sergeant-at-Arms. Included in this gift is also a large number of bills and papers relating to the legislative proceedings.

Mr. Samuel Bernstein, of Cincinnati, has given the Society a copy of his eulogy delivered at the funeral of the late Col. John C. Vaughan, in the chapel of the Cincinnati Crematory, on the 26th of September last; also a copy of a letter written by Col. Joseph Medill, of Chicago, containing reminiscences of Colonel Vaughan. These, with other papers which the Society has collected, afford quite full materials for a sketch of the life of a man long prominent in the history of Kansas, and who, before Kansas had a history, had made a national reputation as connected with historical events of great interest.

PICTURES.

The pictures added to the collections are chiefly portraits of citizens of the State of more or less prominence in affairs of the State's history. Ex-Gov. Samuel J. Crawford has added to our portraits of former chief executives of the State a life-size, oil-painted portrait of himself, by Woodman. The John Brown portraiture, before so largely represented in our collections, has received the accession, by gift of the artist, of Woodman's original oil-painted portrait, so widely known through the engraved copy published in the *Century Magazine* in 1882. Among other portrait accessions, the following are worthy of note: A large, life-like photograph of the late Senator Plumb, the gift of Mrs. Plumb; photograph of Hon. A. Carter Wilder; of Gen. John A. Halderman; Col. R. J. Hinton; Lieut. Gov. Joseph P. Root; Col. John C. Vaughan, Sec. Hugh S. Walsh; Rev. Pardee Butler; Rev. S. L. Adair; Horace Greeley, and Oliver Johnson. Other portraits of interest will be found in the list, elsewhere in this report.

In our lists of war relics and miscellaneous contributions are mentioned

interesting gifts made by Prof. I. T. Goodnow, Maj. J. Arrell Johnson, Prof. Edwin A. Popenoe, Hon. Chas. J. Jones, Miss Hattie W. Lovell, Hon. Sol. Miller, Geo. J. Remsburg, Hon. Chas. A. Foster, Col. Richard J. Hinton, Granville W. Hume, Hon. E. N. Morrill, Hon. Jacob Nixon, Prof. O. St. John, and many other contributors. In our lists of donors of single newspapers, mention is made of large numbers of miscellaneous newspapers contributed by Prof. I. T. Goodnow, Col. Richard J. Hinton, Hon. William Hutchinson, and others.

CATALOGING.

The subject of cataloging of the library of the Society is one to which reference is again to be made, with regret that no catalog volume has yet been published. The work of preparing such a volume has gone forward with as much activity as has been practicable with the force of library workers employed. The labor of cataloging a library of historical materials, such as ours, cannot be estimated in comparison with that of the work of cataloging libraries of books alone, such as make up other libraries. Our library of Kansas history is composed of an innumerable multitude of books, pamphlets, magazines, newspapers, newspaper scraps, State documents, reports of State institutions, reports of railroads, and charitable, scientific and many other societies. All these our Society is cataloging in full, with contents where the book contains a variety of subjects, and with bibliographical and biographical notes. This kind of cataloging will not only show what the library contains, but will point to the political, literary, social and scientific history of the State. Items are now prepared sufficient for a catalog volume. This will soon be published.

WORLD'S FAIR.

On application to the Kansas Board of Managers for the World's Columbian Exposition, a room has been assigned for the use of the Society in the Kansas building at Chicago for a historical exhibition. The Board of Directors has appointed a committee to take into consideration the subject of the kind of display which should be made by the Society. The prominence which Kansas has, during nearly 40 years past, occupied in the history of the country makes it appropriate that our State should have a full representation from its historical collections at the greatest of all historical expositions.

REPUBLICATION.

The editions of the earlier volumes of the collections of the Society have long been exhausted and should be republished. The editions are limited to 2,500 copies. These scarcely serve to supply the demand of persons whose names appear in the publications as donors to the library and collections. There is a large demand besides which can only be partially supplied. Not only should the out-of-print editions be republished, but the editions of future publications should be larger. The Society should have for use in connection

with the Kansas World's Columbian Exposition at least a small supply of the several editions of its publications, in effecting exchanges with other institutions, and in supplying other imperative demands.

ROOM FOR THE SOCIETY.

The subject of the need of additional room for the library and collections of the Society again demands mention in this report. For the proper shelving of our library and the proper placing of our portraits and museum collections, there is need of four times as much room as that now occupied. Our Board has made careful estimates of our needs. The library materials which the Society possesses have from the first been carefully entered upon our accession records, and full statements of their number and character have been made from year to year in the reports of the Society. Our collections now fill every nook and corner of the main room of the Society, from floor to ceiling; they occupy cases in the corridors, and they occupy three rooms in the cellar of the State House. This library and these collections are in all respects the kind of materials which the Society is by law required to gather into the State Capitol for the use of the people. They do not consist of trash or valueless matter in any respect. They consist of the very materials which go to make up the history of the State and the country. One single room in the State House cellar, only reached through darkness, grime, and dust, contains upwards of 5,000 volumes of papers, which contain the actual history of every county in the State during the past 17 years, and in large part the history of Kansas for all the years from the earliest settlement of Kansas Territory. In other cellar rooms and corridors are more than 100 large boxes of books, which contain the actual political history of the country since the foundation of the Government. The amount of proper library space which these books demand, in order that they may be properly placed, is determined by the well established rules of library architecture and shelf room. It is readily shown to be four times the room space now given the Society in the Capitol building. Our large collections of museum relics, of intense interest to the youth and masses of our people, are so crowded and huddled into the few cases which our scant room gives them that they cannot be seen with the least satisfaction.

The Board has made all possible effort to have adequate room provided for our present and future needs in the Capitol building when it shall be completed. No designated or contemplated rooms for the Society are to be seen in the present plans of the building. In order that there may be provision made, our Board has asked from the State Executive Council directions to the Board of Public Works and State Architect to reëxamine the plans of the building, together with such assignments as are contemplated for the various departments of the State, with a view to determine in what part of the building rooms may yet be provided for the Society. It is hoped that this examination will be made, and that information will be elicited which will lead to provision for adequate accommodations for the Society.

MEETINGS, 1891-'92.

THE FIFTEENTH ANNUAL MEETING.

The fifteenth annual meeting of the Society was held in the hall of the House of Representatives, Tuesday evening, January 20, 1891; Hon. C. K. Holliday, President, in the chair.

REPORT.

THE ninth biennial report of the Board of Directors of the Kansas State Historical Society is herewith presented. It shows the work of the Society during the two years from November 15, 1892, to November 20, 1894. Its publication has been delayed owing to deficiency in funds in the state printing department.

This Society has been engaged in its work for 19 years. For this period it has been intrusted by the people of the state with the duty of collecting the scattered materials of the eventful history of Kansas and, taking these materials as a basis of making up in the state capitol a general library of reference for the use of the people. The Society was formed by the Kansas State Editorial Association in 1875. That association, then embracing in one body a large representation of the intelligent and thoughtful people of the whole state, at the annual meeting held at Manhattan in April of that year appointed a committee to organize a State Historical Society. The committee organized this Society. Work was begun by the beginning of the centennial year (1876). That year the collections into the library numbered 408 bound and unbound volumes, including volumes of newspaper files. From this small beginning the library has grown to the number of 79,900 volumes, besides an almost innumerable collection of manuscripts, pictures, and historical relics and memorials of every description.

During the period covered by the report there have been added to the library 1,460 volumes of books; 5,346 unbound volumes and pamphlets; 2,776 volumes of newspapers and periodicals; 481 single newspapers containing matter of special historical interest; 326 maps, atlases, and charts; 2,891 manuscripts; 312 pictures and other works of art; 17 pieces of scrip, currency, and coin; 2 war relics; and 387 miscellaneous contributions.

Thus, to the library proper, of books, pamphlets, newspapers, and periodicals, during the two years have been added 9,582 volumes. Of these, 9,073 have been procured by gift and exchange, and 509 by purchase.

The total of the library at the present time is as follows: 15,874 bound volumes of books, 48,617 unbound volumes and pamphlets, 15,409 bound newspaper files and volumes of periodicals; in all, 79,900 volumes.

Of the accessions of books and pamphlets during the two years, 385 volumes have been purchased and 6,421 have come by gift and exchange. Of newspapers and magazines, 189 volumes have been purchased and 2,587 have been donated to the Society. The lists and tables in the report show the sources from which all the accessions of the different classes have come.

KANSAS NEWSPAPERS.

To the bound volumes of newspapers and magazines published in Kansas, 1,635 volumes have been added during the two years. These have all been donated to the Society by the publishers. The library now contains on its shelves 10,689 bound volumes of Kansas newspapers and magazines. This is a larger collection of local historical materials of this class than is contained in any other library in the world. Of newspapers and magazines published in other states, the library contains 4,720 volumes.

SOURCES—LEGAL REQUIREMENTS.

The accessions to the library come by gift, by exchange, and by purchase. Those by gift and exchange come largely from societies and institutions, and from state, government, municipal and other public authorities. The purchases come from booksellers. These three means of building up the library are contemplated in the law which recognized our Historical Society as an institution of the state and provided for its maintenance and the care of its

collections—the act of the legislature of 1879. In the language of the act, it is the duty of the Society to procure, “by gift and exchange, scientific and historical reports of the legislatures of other states, of railroads, reports of geological and other scientific surveys, and of such other books, maps, charts, and materials as will facilitate the investigation of historical, scientific, social, educational and literary subjects,” and “to purchase books to supply deficiencies in the various departments of its collections.”

The Society had been engaged in its work three years before its duties were specifically defined by law. The law was evolved from the experience of those three years. With little money expended, by 1879 a library of 4,300 volumes had been made up by the Society in the statehouse. It had grown almost wholly from gifts and exchanges. Now the state by law provided for the care of the library, and for its future growth. To enable the Society to augment its collections through exchanges, the legislature provided that, with one exception, there should be given it 60 bound copies of all of the publications of the state and of its institutions. It made the Society “the trustee of the state,” imposed upon it definite duties in the discharge of its trust, and, with the Society’s consent, took its library and collections into its keeping as the property of the state.

The legislature made it the duty of the Society to continue as hitherto in its work of making up a library of reference in history, science, education, politics, and in the various departments of human knowledge, by soliciting gifts and making exchanges, and by purchasing such books as might be necessary to supply the deficiencies in the various departments. Purchases had become quite necessary. A foundation had been made for a large library of general reference in all departments. Experience had shown that the growth by gift and exchange was resulting in making a library very incomplete in its various departments. As a consequence, in the use of the library, there would be found but incomplete sets of books upon any subject of investigation. The law, for this reason, provided that purchases should be made to supply the deficiencies in such sets, so that a well-rounded and well-filled library of reference should be made up for the use of students, investigators, and writers upon all subjects of common inquiry.

PURCHASES INSUFFICIENT.

Up to the present time, the appropriations for purchases have been wholly inadequate to supply deficiencies. They have been usually but \$500 annually. This is a trifling and insignificant amount compared with the accessions by gift, and compared with what is being expended by other states for such purchases. Wisconsin, Minnesota, Illinois, and Iowa, for example, give for the purchase of books for their historical libraries from \$3,000 to \$5,000 annually.

Take one class of gifts alone—that of newspapers and magazines. The newspaper publishers of Kansas are giving to the library, annually, about 860 volumes. These, at the rates paid by subscribers, would give to the pub-

lishers an aggregate of at least \$1,000 per year. This sum is thus being donated annually to the state by one class of our citizens to aid in building up the historical library of Kansas. The generosity of these givers stands in striking contrast with the meagerness of the state appropriations for accessions to the library. This library is for the use of all the people of the state. No other part of the library is being so much consulted as are the newspaper files. In them, search is made by citizens of all parts of the state for legal notices, for dates and details of occurrence of events, for facts concerning the organization and movement of political and social bodies, and, in fact, concerning all the numberless subjects which enter into the busy life of our people, and which find so full a record in our local newspapers.

Our library contains the files of the newspapers of every county in the state. Considering the small proportion in numbers which the class of newspaper publishers bears to the number of citizens of the state at large, the generosity of the one class by no means finds proper recognition. These newspaper people were the founders of the State Historical Society. To them the state owes the existence of a library already unequalled, in the value of its local historical material, by that of any state of the union. It is certainly demanded that the state should respond to the liberality of the newspaper publishers, by adequate appropriations for making this library complete in all its departments.

NEWSPAPERS AS MATERIALS OF HISTORY.

It cannot be said that these newspaper files are not worth in this library the price of their subscription rates. They contain the history of Kansas. No part of Kansas history can be written without consulting these files. Hon. Nelson Case, of Oswego, the author of the recently published history of Labette county, one of the most complete histories yet written of any Kansas county, says:

"I think that anyone who has considered the matter, and especially anyone who has had any experience in writing local history, will agree with me in saying there is no help so complete and accurate as the home newspaper in giving the happenings in any community."

Says Hon. John Maloy, the very capable historian of Morris county:

"Speaking of the importance of the newspaper files in your Society's rooms, I do not think the history of any county in our state could be written without consulting them. . . . I could not now do anything in the way of sketching the history, biography or incidents of Morris county without having recourse to the files of your library. I regard the State Historical Society as one of the indispensable institutions of our state; one, however, too little appreciated and too begrudgingly aided and fostered by legislation."

In a recent article in the *Forum* magazine, President Eliot, of Harvard University, says of the American newspapers of the present time, that,

"Taken together with magazines and the controversial pamphlets, they

shed more light on the social, industrial and political life of the people of the United States than was ever shed before on the doings and ways of any people. Many people," he says, "are in the habit of complaining bitterly of the intrusion of the newspaper reporter into every nook and corner of the state, and even into the privacy of the home; but in this extreme publicity is to be found the means of social, industrial and governmental reform and progress."

The newspaper which thus enlightens the public becomes an enduring record of history when preserved in a library. It carries down to the succeeding generations the story of the social, industrial and political life of the people, as the world moves forward in change and progress. For Kansas, all the newspapers published in the state are thus being preserved. A newspaper association established the Society, and newspaper publishers are making the most valuable additions to its library.

Our Society stands foremost among the historical societies in this country in the work of saving newspapers as materials of local history. Various causes have prompted the Society to diligence and thoroughness in this work; chiefly, that the Society was established by newspaper men; that the newspaper men of the state have always comprised the principal membership of the Society; and that they have always taken a pride and interest in the work which the Society is doing for the state. Historical societies and librarians have always valued this library feature. But it would seem that never, until in the instance of our Society, has an institution been so constituted as that sufficient attention and labor have been given to this department to make its work thorough and complete.

Twenty-two years ago, Hon. A. R. Spofford, the distinguished librarian of Congress, the foremost of all library makers, said, in the *Centennial History of Libraries in the United States, 1876*:

"The modern newspapers and other periodical publications afford the truest, the fullest, and, on the whole, the most impartial image of the age we live in that can be derived from any single source. Taken together, they afford the richest materials for the historian, or the student of politics, of society, of literature, and of civilization in its various aspects. What precious memorials of the day even the advertisements and brief paragraphs of the newspapers of a century ago afford us. . . .

"While the files of the journals of any period furnish unquestionably the best instruments for the history of that epoch, it is lamentable to reflect that so little care has ever been taken to preserve a fair representation of those of any age. The destiny of nearly all newspapers is swift destruction, and even those which are preserved commonly survive in a provokingly fragmentary state. These poor journals of to-day, which everybody is ready to stigmatize as trash, not worth the room to store or the money to bind, are the very materials which the man of the future will search for with eagerness, and for some of which he will be ready to pay their weight in gold. These representatives of the commercial, industrial, inventive, social, literary, political, moral and religious life of the times should be preserved and handed down to posterity with sedulous care. No historian, or other writer on any subject, who would write conscientiously or with full information, can afford to

neglect this fruitful mine of the journals, where his richest materials are frequently to be found."

Said our own lamented governor, John A. Martin, referring to the files of his own newspaper, afterwards mainly destroyed by fire:

"Piled up in the corner of the *Champion* office is the most complete history of Atchison that will ever be written. It is comprised in 35 bound volumes of the *Champion*, weekly and daily, from the first issue made by the present proprietor, February 20, 1858, up to the present time. In these papers—many of them beginning to take on the yellow hue of age—every essential fact connected with the growth and development and daily life of the city of Atchison is recorded—marriages and deaths; the establishment of business and manufacturing enterprises, and their changes; transfers of property; the erection of all important buildings; the results of elections; the opening of streets; the building of railroads; fires and floods; the municipal policies suggested, discussed, and adopted; and the daily life, thoughts, hopes, triumphs and disappointments of an aspiring and energetic community are all embodied in these files."

SOME CLASSES OF BOOKS.

It must not be thought that our Society, in its high appreciation of its newspaper work, is neglecting other departments. Within its means, it is making up a very full library of reference in every department. Into this library is being brought everything published in Kansas upon all subjects. In its general library, it is becoming very full in works relating to the discovery, exploration and settlement of the Western country, and of this class contains no less than 835 volumes; in works relating to Indian history, 442 volumes; in general history, United States history, and the history of the several states, we possess 2,875 volumes; in biography, 1,026 volumes; in science, 4,088 volumes; in education, 1,956 volumes; in political science and political economy, 3,910 volumes; relating to trade and commerce, 1,120 volumes; to agriculture, 1,154 volumes; in religion, 1,206 volumes; relating to charitable subjects, 1,417 volumes.

The history of this country during the last 40 years has hinged upon the history of Kansas. The industry and efficiency of the Kansas State Historical Society, in collecting the materials of Kansas history and of the history of the country in all respects, has attracted the attention of appreciative people everywhere. Hence, around our nucleus of local history has grown up, mainly by gift and exchange, the publications of almost every society and institution throughout this country and of many in the old world. The lists of donations contained in our ninth biennial report show that accessions, chiefly of books and pamphlets, come from more than a thousand different sources.

WAR BOOKS.

In respect to special features of library collections, there are two classes of books in which the library should be made very complete: First, all books written about Kansas history, and books of Kansas authorship of all kinds;

and second, books written upon the history of the war of the rebellion. As to the first class, the library is being made complete by the generous gifts of Kansas authors and publishers. In respect to the latter class, it is far from being made complete. It may be said that the period of the early history of Kansas, during which our people struggled through unsurpassed difficulties into a state existence, was but a prelude to the war of the rebellion. The war for the preservation of the union and of its free institutions raged for six years in Kansas; was fought almost single-handed here by our pioneer settlers before it was taken up by the nation and fought out to its glorious end.

Every well-written book pertaining to the war should be brought into the state historical library. A nucleus for such a library of war history has been gathered in, numbering 511 volumes. There are yet hundreds of volumes pertaining to the details of the war, written in large part by the actors in it, which should be brought into the library in order that it shall be made a complete library of reference as to the history of the great epoch in which Kansas history formed so considerable a feature. A very moderate estimate would call for a present expenditure of a sum of not less than \$1,000 for the purchase of books of this class.

SPECIAL GIFTS.

Of the 2,891 manuscript papers and books of special interest given the Society during the two years, may be mentioned those given by Mr. Orville C. Brown, of Adams, N. Y. Mr. Brown was, more than any other person, the founder of Osawatomie. He was a prominent citizen of Kansas during the entire territorial period, and active in public affairs in many useful ways. He met with serious losses from pro-slavery depredations and outrages. His manuscripts given the Society relate, in large part, to matters of early Kansas history.

Hon. J. C. Burnett gives some interesting papers relating to political affairs at important crises in Kansas history.

Prof. I. T. Goodnow before his death, which occurred less than a year ago, added to his former gifts many manuscripts of much interest relating to public affairs in the later '50s, especially relating to the founding of the State Agricultural College—an institution to the establishment of which he, perhaps, contributed more of wise effort than any other person.

Gen. John A. Halderman has again given bountifully from his stores of papers saved through a long period of public life, extending from the earliest Kansas days to the present time. Among these papers are many letters written by Gov. Andrew H. Reeder and other prominent public men of Kansas territorial times, and by many others in different parts of this country and of the world.

The manuscript papers of the late Hon. James Hanway, which have for a number of years been in the possession of the Society as a conditional deposit, have, through the generosity of his son, Mr. John S. Hanway, of Lane,

been brought permanently into the collections of the Society. These papers are of great interest as reflecting the life work of an earnest student, industrious writer, and faithful public servant, for many years an active citizen of Kansas and a zealous promoter of her best institutions.

Col. R. J. Hinton has contributed important additions to his former gifts, including many papers relating to early Kansas free-state immigration, to measures of resistance against pro-slavery aggression, to John Brown history, and to the war of the rebellion.

Rev. J. D. Knox has given valuable manuscript papers and books relating to the history of the freedmen's exodus from the Southern states to Kansas, and to the work of the Kansas Freedmen's Relief Association in caring for the exiles in 1879-'81.

Miss Eva Ryan, of Hiawatha, has given some autograph poems of the late Mrs. Ellen P. Allerton.

J. B. Whitaker, of Topeka, has given a large number of official papers, which illustrate the methods of the pro-slavery party in harassing and persecuting free-state settlers.

The Kansas Baptist convention, at its late session at Winfield, upon the suggestion of Rev. J. B. Thomas, of Topeka, voted to place the important papers of the convention, not needed for immediate use, in the custody of our Society. These have been brought into our collections, numbering 261 pamphlets, containing the minutes and proceedings of Kansas Baptist associations and conventions; 2,202 manuscript papers, and 37 manuscript books. Mr. Thomas contributed from his own collection 72 pamphlets. This denomination publishes more largely than any other the proceedings of its local organizations.

This is the third instance in which ecclesiastical bodies of Kansas have chosen to place in our state archives the materials of the early history of their organization and work. The two former deposits were made by conferences of the Methodist Episcopal church—the parent organization, the Kansas Conference, and the South Kansas conference. Church organizations have always been powerful promoters of the immigration of the better class of settlers into the new states. The circumstances attending the settlement of our own state invited the incoming of people imbued with religious principles and enthusiasm. The organizations of these bodies were effected at the time our earliest political organizations were being formed. The ministers of the churches were among the active men in political movements. The nature of their calling brought them into the closest relations with the people in their homes, in their social intercourse, in their educational movements, and in all the higher relations of our best elements of civilization. The history of Kansas churches is, in large part, the history of the better Kansas. Our Society has reason to feel a great degree of gratification at the confidence reposed in it as the custodian of the records of these bodies. Taken together with the very large body of original records of the work of

the early missionaries of Kansas, of Meeker, McCoy, Pratt, Johnson, Simmerwell, and others, which have been brought into our library, and of which frequent mention has been made in these reports, it may be doubted if any library in the Mississippi valley now contains so great a fund of materials of missionary and religious history as are crowded into our limited fireproof receptacle. The scantiness of the room for the placing of these precious memorials calls loudly for more ample provision for their keeping.

Rev. Lewis Bodwell, of Clifton Springs, N. Y., has given the Society a very interesting set of views of the oldest Congregational church buildings erected in Kansas, together with portraits of the pastors and their wives. Rev. L. P. Broad, included in a large gift of materials showing his recent work as missionary of the Congregational churches in Kansas, has also given pictures of two Congregational churches, one of them that of a sod church in Osborne county.

An interesting relic of war history is a map made by Col. William Tweeddale, of Topeka, showing the mode of construction of the New Madrid canal, a device which led to the capture of Island No. 10, in the Mississippi river, April 7, 1862. The canal was planned by the donor of this map and it was constructed under his supervision.

In this connection may be mentioned a set of church charts brought into the library through the World's Columbian Exposition. These charts contain data and statistics pertaining to the founding and history of 178 churches and Sunday schools of all denominations in the various counties of Kansas, in many instances with portraits of pastors and views of church edifices. These form a unique and interesting collection of materials of Kansas church history. In the gathering of this history an ingenious blank chart devised by Mrs. J. C. Trotter, of Wichita, has been used. Mrs. A. M. Clark, secretary of the World's Fair board of managers, is deserving of great credit for the interest taken by her in bringing these charts into our library.

Orville C. Brown, of Adams, N. Y., has given a large number of interesting views and portraits. Supt. W. M. Davidson, of Topeka, has given a large number of views of schoolhouses in different portions of the state. Warren Foster, of Hutchinson, has placed in our collection a very interesting memorial descriptive of Abraham Lincoln's home in Kentucky and relating to his marriage. Col. R. J. Hinton has given an interesting collection of John Brown portraiture. A very fine portrait of the late Hon. John C. Vaughan has been given the Society by Hon. Joseph Medill, of Chicago.

A life-sized portrait of Governor Lewelling has been added to our collection of portraits of Kansas governors, the gift of friends of the governor among the state officers and others.

A fine oil-painted portrait of the late Henry J. Adams, the gift of members of his family, has also come into the collections. Mr. Adams was among the most prominent of the early settlers of Kansas, was elected governor under the Leavenworth constitution in 1858, and held many positions of honor and trust. The portrait is the work of the artist George M. Stone.

In compliance with the request of the Society, Maj. James S. Phillips, of the U. S. navy, has added to our picture gallery a fine oil-painted portrait of his father, the late Col. Wm. A. Phillips.

Messrs. Pennell & Zellner, photographers, Junction City, have contributed some excellent views taken at Fort Riley and vicinity, and H. S. Stevenson, photographer, Leavenworth, has given like views of the vicinity of Leavenworth and the fort.

Dr. L. F. Wentworth, of Osawatomie, has added to our picture collection a very fine set of views taken at Osawatomie, including those of the buildings of the state insane asylum, representing various stages of the history of the growth of that institution, a view of the John Brown monument, also of the house of Rev. S. L. Adair, built by him in 1855, in which he still resides, and in which John Brown made his home during his tarrying in Osawatomie, from 1855 to 1859.

Valuable newspaper files have been given by Hon. Joel K. Goodin, of Ottawa, John S. Hanway, of Lane, A. S. Huling, of Topeka, V. J. Lane, of Kansas City, Z. F. Riley and F. A. Root, of Topeka, Gov. A. J. Smith, of the soldiers' home, Leavenworth, Mrs. Jenny M. Ward, of Ottawa, and others.

An interesting relic of the barbarism from which our country escaped during the period of the history of Kansas, is a slave shackle taken by Joseph McFarland, now of Wichita, from the ankle of a negro slave in Missouri, a short time before the war of the rebellion, and brought by donor to Kansas and deposited by him in the collections of our Society. Geo. J. Remsburg, of Atchison, has added to his former gifts of mound-builders' relics. R. J. Traver, of Leoti, has given some very interesting relics from an Indian burial receptacle in Wichita county.

Capt. P. H. Coney has added interesting relics of the Lapland exhibit at the World's Fair. Many interesting relics of the investment of the state-house by the state militia in February, 1893, have been given by various persons of the different parties who took part in the interesting events of that brief period; among these is the sledge hammer used by Speaker George L. Douglass in opening the door of the house of representatives, and which has been deposited by him in our collections.

Among the objects of interest displayed at the World's Columbian Exposition, at Chicago, several have been deposited in the collections of our Historical Society. Among them may be mentioned that deposited by Mrs. Elizabeth Magie, of Girard, for the Grand Chapter of the Order of the Eastern Star in Kansas, being a large banner, in an elaborately carved oak frame, and showing on its face representations of the local chapters throughout the state; an elegant banner deposited by the Woman's Columbian Club of Jewell county, at the hands of Mrs. A. M. Clark; a fine carved and upholstered chair, exhibited by the Woman's Columbian Club of Nemaha county, and deposited by Mrs. Mary E. Todd, secretary; design executed on oak, in carved work and oils, for the Woman's Relief Corps, department of

Kansas, Mrs. Edith M. Wood, president, together with the six national flags used in its decoration.

Among the donors of books and pamphlets worthy of special mention, the following may be named: Kansas Baptist state convention, Rev. L. P. Broad, O. C. Brown, Mrs. A. M. Clark, F. D. Coburn, Chas. S. Davis, Henry T. Drowne, Dr. Samuel A. Green, R. J. Hinton, Indian Rights Association, C. M. Light, George T. Pierce, Z. F. Riley, Frank A. Root, Royal Academy (Stockholm, Sweden), Rev. C. S. Sheffield, Mrs. K. W. Shepperd.

OBITUARY.

During the last two years death has made sad inroads upon the prominent membership of the Society.

Col. William A. Phillips died November 30, 1893, at Fort Gibson, while on a business trip to the Indian Territory. He had always been a prominent figure in Kansas history and had been President of this Society. Memorial proceedings were had at the annual meeting in 1894.

Hon. Timothy Dwight Thacher died January 17, 1894. He had been a citizen of Kansas, with only a brief absence, since 1857, and had all the time taken a leading part in public affairs. He had been President of the Society, and always one of the most useful counselors in the conduct of its work.

Joseph C. Hebbard died January 22, 1894. He was an early citizen of Kansas, and an early member of this Society and of its Board of Directors. As a journalist, he had learned to value, more perhaps than any other, the collections of the Society, as furnishing data upon which to base exact statements in journalistic work in all matters pertaining to Kansas. His loss to the Society cannot be estimated.

Prof. Isaac T. Goodnow died March 20, 1894. He was one of the earliest settlers in Kansas, and was one of the numerous class who came to the new territory with the high purpose of aiding to establish good institutions in the new state to be founded. He came well equipped in learning and maturity of good character to perform a useful part in carrying out such aims. During his life here he occupied many positions of honor and usefulness. He was one of the most active members of the State Historical Society, and one of the most bountiful contributors to its collections.

Ex-Gov. James M. Harvey died April 15, 1894. He was a Kansas soldier in the war for the preservation of the union, a legislator, for two terms governor of the state, and a United States senator from Kansas. For a number of years he was a member of the Board of Directors of this Society, and always manifested an interest in its work.

Ex-Gov. Charles Robinson died August 17, 1894. His name, from the very beginning of the settlement up to the day of his death, was conspicuously linked with the history of Kansas. He ranked foremost among the founders of the state, and for more than a generation was one of the most

prominent of its leading citizens. One of the earliest Presidents of this Society, he was always among the most useful of its members. At our last annual meeting he was present with the Board of Directors, of which he had always been a member, and took an active and interested part in the proceedings.

Memorial proceedings respecting these late distinguished members of our Society have been initiated by our Board of Directors.

PHONOGRAPH.

The Board has ventured upon an experiment with the Edison phonograph as a means of making and preserving historical records. The experiment has been carried to the extent of procuring the records of the voices of Ex-Governors Crawford, Osborn, Glick, and Lewelling, and of Chief Justice Horton. Unfortunately, Governor Robinson was not reached in time to procure a record of his voice; but, upon request, Mrs. Robinson consented to read into the phonograph a portion of Governor Robinson's inaugural address; and thus her voice was put on record in lieu of that of her recently deceased husband's. Brief extracts from the inaugural or other official addresses have been recorded upon phonographic cylinders, to be preserved for use at any time, and for all time, as unique historical records of the voices of the representative officers of the state in the earlier period of her history. It is for the Society and the legislature to determine whether the experiment has so far demonstrated the utility of this mode of preserving history as to warrant its continuance, within such prudent limits as may be established.

ROOMS.

The subject of rooms for the accommodation of the library and collections of the Historical Society is still one of the most important that can engage the Society's attention. The legislature at its last session, 1893, granted three additional rooms, in the south wing of the statehouse, and made an appropriation for furniture and shelving for the same. These added rooms, though far short of supplying our present needs, have greatly facilitated the placing of the library and the general work of the Society.

The grant was made under a concurrent resolution in the following words:

Resolved, That the rooms now occupied by the supreme court commissioners, in the basement of the south wing of the capitol building, be assigned for the additional and temporary use of the State Historical Society, and that it shall be the duty of the state executive council to cause suitable shelving and furniture to be immediately supplied to said rooms for such use.

The Society began its work nearly 19 years ago, without need of room, except desk room for the Secretary and room for a bookcase. These simple needs were found in the state offices, generously and encouragingly given. From time to time since, as needs demanded and as far as the unfinished condition of the statehouse would admit, rooms have been provided, so that now

the Society occupies more room than any other department in the statehouse. It would occupy twice as much as now if its library and collections were suitably placed. The rooms now occupied are in different parts of the basement portion of the capitol building, widely separated, and situated in every way inconvenient for use and access to the public.

In view of the contemplated provision for the completion of the capitol building, it is urgently demanded that plans should now be adopted for permanent and ample rooms for the Society. During the last session of the legislature this subject of permanent rooms was brought before that body, and the state architect was consulted by a legislative committee; but as no action was taken for the completion of the building, nothing was done toward providing permanent quarters for the Society.

In estimating for room space for our library and collections, we have taken the rooms of the Wisconsin state historical library as in considerable measure an index of our needs. That society occupies three floors of a wing of the state capitol building at Madison, built mainly for the use of the society, and completed in 1884. Each floor containing these rooms is 106 feet in length by 62 feet in breadth. The floor space of the three floors is nearly 20,000 square feet. The area of the floor space occupied by our Society at present is about 3,000 feet. Thus, the Wisconsin society occupies nearly seven times as much room as our Society. The library of the Wisconsin society contains 160,000 volumes. Our library contains 79,000 volumes; our library being nearly one-half as large as the Wisconsin library, but possessing but about one-seventh as much room. The Wisconsin society occupies three and a half times the room of one of the floors of a wing of our state capitol building.

These statements show that our library should have provided, for its present and future needs, room space at least equal to that of two entire floors of a wing in our statehouse. These statements are based upon actual measurements. They are made in accordance with library experience and library rules derived from experience. At our present rate of increase, all the space of two floors of one of the wings of our capitol building will be required to answer the needs of our Society within the next five years. A conference with the state architect on this subject has led to the opinion, that in view of existing plans for the completion and occupancy of the capitol building, and in view of assignment of room already made and contemplated, provision for the Historical Society can best be made in the east wing, the two main floors being given for that object. The rooms on those floors, as now understood, will be mainly or wholly vacated by the departments now occupying them by their removal into other portions of the building.*

* These recommendations as to room for the permanent home for the Society in the capitol building, as made by our Board of Directors at the November meeting, 1894, received the approval of the legislature of 1895, through the passage of a concurrent resolution directing that the two floors of the east wing of the capitol below the senate chamber be fitted up for the Kansas State Historical Society, when they shall be vacated by the present occupants.

Our Society has calls for present legislative action to supply its urgent needs, as follows: Provision for permanent rooms in the completed capitol building, additional temporary room, increased funds for the purchase of books, additional appropriation for clerk hire, and provision for present printing needs. Our clerical workers—always industrious, skillful, and faithful—have never been adequately paid. Some of them should have increased salaries. And there is an imperative demand for an additional clerk.

Provision should be made at the very outset of the session of the legislature for the printing of this report and for the printing of the catalogue of the Kansas portion of our library, now ready for the printer. Our Society, as before mentioned, in respect to the printing of this report, has fallen under the misfortune resulting from the scant printing appropriation made by the legislature of 1893.

MEETINGS, 1893-'94.

BOARD OF DIRECTORS' MEETING—JANUARY 17, 1893.

The meeting of the Board of Directors, preparatory to the seventeenth annual meeting of the Society, was held in the Society's rooms, January 17, 1893, at 3 P. M.

The following members were present: Hon. Jas. S. Emery, Hon. A. R. Greene, Hon. F. P. Baker, Hon. S. C. Wheeler, Col. D. R. Anthony, Hon. William Sims, Hon. T. D. Thacher, M. Weightman, Hon. Geo. W. Martin, Hon. S. A. Kingman, Hon. V. J. Lane, Hon. P. G. Lowe, Mrs. S. N. Wood, Col. C. K. Holliday, George D. Hale, Dr. P. McVicar, Hon. W. H. McBride, Hon. John Guthrie, and Secretary F. G. Adams.

A. R. Greene, Vice President, presided, in the absence of Gov. Thos. A. Osborn, the President.

The Secretary stated the business of the meeting to be the consideration of reports of committees.

Judge Emery, for the committee previously appointed on the World's Columbian Exposition, made a verbal report, stating that the committee recommend that an exhibit be made from the collections of the Society, consisting of the portraits of prominent Kansans, of pictures illustrating the history of the state, a full collection of books by Kansas authors, as complete a collection as possible of newspapers published in one or two of the older and newer counties, and of mound-builder, Indian and other relics peculiar to Kansas history. Judge Emery mentioned that various private collections had been offered the Society by Kansas citizens for display in connection with the Historical Society's exhibit.

On motion of Mr. Baker, the committee was continued, with full power to act in all matters pertaining to the Society's exhibit, including the presentation of a bill asking the legislature for an appropriation to defray the

actual expenses of such exhibit, with the understanding that no salary should be paid from such appropriation.

The Secretary then read the report of the Committee on Nominations.

The committee appointed to make arrangements for a Whittier celebration reported that, owing to lack of time, they had done nothing in the matter, and, at their request, the committee was discharged.

A resolution was adopted requesting the incoming officers and Executive Committee to appoint a Committee on Legislation.

The Secretary presented the subject of needed additional room for the Society. On motion of Colonel Anthony, a resolution was adopted requesting the Legislative Committee to act with the President and Secretary to frame a bill for presentation to the legislature making provision for room sufficient for the present and future needs of the Society.

On motion of Judge Kingman, the President appointed the following committee of three to draft resolutions on the services and death of Col. Samuel N. Wood, viz.: Col. D. R. Anthony, Hon. J. C. Hebbard, and Hon. George W. Martin.

ANNUAL MEETING OF THE SOCIETY—JANUARY 17, 1893.

The seventeenth annual meeting of the Society was held in the senate chamber, the evening of January 17, 1893; Vice Pres. Albert R. Greene in the chair.

The Secretary read an abstract of the eighth biennial report of the Society.

Hon. W. H. T. Wakefield, of Lawrence, read a paper on "Squatter Courts in Kansas."

Colonel Holliday then gave a brief history of the origin and of the events of the "Wakarusa War."

A paper written by Mrs. Lois H. Walker (formerly Mrs. George W. Brown) was then read, relating to the bringing into Lawrence, by herself and Mrs. S. N. Wood, of ammunition from the house of Mrs. J. B. Abbott, for the use of the free-state men during the Wakarusa war, and Mrs. Wood made a brief verbal statement of her memories of the event.

The portrait of Col. S. N. Wood was then presented to the Society by his widow, Mrs. Margaret L. Wood, in the following words:

MR. PRESIDENT: One whom the people of Kansas will never forget; one who was a true friend of Kansas, and consequently a true friend of the State Historical Society, and an earnest worker for the objects for which it was instituted; one who was a friend to his fellow-men, and whose heart held a wealth of tenderness and compassion for all who suffer from wrong, oppression, and poverty; one to whom the hand of want never reached out in vain. He may have had faults; I have forgotten what they were. They called him a fighter, and a foe to be dreaded; but whether friend or foe, in the face of want and suffering, his heart was as tender as the heart of a child. That you may keep his features in mind; that you may not in this life forget him, and may know him when you meet him on the blest immortal shore of a better land, I present you this portrait of Samuel N. Wood.

Secretary Adams accepted the portrait in behalf of the Society.

Colonel Anthony read the following resolutions, which were unanimously adopted by the Society:

WHEREAS, By the hand of a cowardly assassin, the Hon. Samuel N. Wood has been taken from us; and

WHEREAS, Colonel Wood was an earnest and most useful member of this Society; a man who himself helped to make Kansas history; a leader and a tower of strength in the early struggles against slavery; a strong, earnest, aggressive laborer in the cause of right, as he saw the right; a bitter, unrelenting foe to every wrong that presented itself to him as wrong: therefore,

Resolved, That it is with deep sorrow that we have heard of the untimely and tragic death of Colonel Wood; and

Resolved, That it is our opinion that there is a radical defect in laws that are impotent to punish his assassin; and

Resolved, That we extend to his bereaved widow, who stood by him for so many years, and was in truth his helpmate in every good work, our heartfelt sympathy, and hereby express the sincere hope that she may continue long to supplement his faithful work, to which she herself so largely contributed; and

Resolved, That these resolutions be spread upon the minutes of this Society, and a copy of them be furnished to Mrs. Margaret L. Wood, the widow.

The Kansas poems of John G. Whittier were then read by Hon. T. D. Thacher. Mr. Thacher prefaced the reading by appropriate remarks relating to the character of Whittier and his great sympathy with the people of Kansas in their efforts to plant the institutions of freedom upon the soil of the new territory. The poems read were the following: "The Kansas Emigrant's Song," "Le Marais du Cygne," "The Burial of Barber," and verses relating to John Brown.

The President offered the following resolution, which was adopted, relating to the subject of private exhibits offered the Society for use at the Chicago exhibition:

Resolved, That the World's Fair committee be authorized and instructed to accept from private donors contributions to the Kansas historical collections in the Kansas building at the World's Fair exhibition, such objects of historical interest as the owners may present for that purpose, the committee to use its discretion as to accepting or rejecting such offers.

The following members of the Board of Directors were then elected, for the term of three years, ending January 21, 1896: Jas. B. Abbott, Lucien Baker, W. L. Brown, J. B. Chapman, E. B. Cowgill, Chas. Thacher, W. H. T. Wakefield, A. B. Whiting, and C. A. Woodworth; the latter to fill vacancy caused by the removal of Rev. J. W. D. Anderson from the state.

ANNUAL MEETING, BOARD OF DIRECTORS—JANUARY 16, 1894.

The eighteenth annual meeting of the Board convened in the east rooms of the Society, Tuesday, January 16, 1894, at 2 p. m.; President Lowe in the chair.

The following members of the Board were present: Col. Percival G. Lowe, Col. Cyrus K. Holliday, Judge Samuel A. Kingman, Gov. Chas. Robinson, Hon. W. L. Brown, Hon. John Speer, Prof. E. B. Cowgill, Dr. Stephen McLallin, Hon. John Guthrie, Warren Foster, Esq., Hon. Floyd P. Baker, Dr. Peter McVicar, Hon. McCown Hunt, Col. D. R. Anthony, Hon. J. C. Hebbard, and Secretary F. G. Adams.

The Secretary read the report of the World's Fair committee, as follows, which was adopted:

The committee appointed by the Board of Directors to take charge of the Society's exhibit at the World's Columbian Exposition have to report, that

on the application of the committee, the Kansas board of managers, which was appointed under the act of the legislature making an appropriation for the general Kansas exhibit, granted to the Society the sum of \$500 for use in making a historical exhibit in the Kansas building. From the library and collections of the Society a selection was made of Kansas books and pictures, and these were shipped to Chicago and placed in the rooms assigned for the Society's use. It is believed that the historical exhibit so made contributed no inconsiderable share to the interest which attached to the Kansas exhibits. Herewith is given a detailed statement (see daybook No. 2, p. 82) of the expenditures in placing, caring for, and returning the exhibit to the rooms of the Society, from which it will be seen that less than the entire sum of \$500 was expended, the balance remaining in the hands of the board of managers, being the sum of \$51.02.

Respectfully submitted.

C. K. HOLLIDAY.
F. G. ADAMS.
J. S. EMERY.

Mr. Brown moved that, as Mr. Thacher, Major Simpson, and Mr. Greene, members of the Nominating Committee, were not present, their places be supplied by three members to be appointed by the chair. The motion was adopted, and Messrs. Robinson, Anthony and McVicar were appointed.
